

# Ride a motorcycle with a mobile application

GrabBike is a motorcycle taxi service that directly connects customers and drivers through smartphones and this is an extension of GrabTaxi application in Vietnam.

**GrabBike is a motorcycle taxi service that directly connects customers and drivers through smartphones and this is an extension of GrabTaxi application in Vietnam.**

On November 27, in Ho Chi Minh City, the motorcycle taxi application - **GrabBike** was officially launched, this is a motorcycle taxi service to directly connect customers and drivers through smart phones.

GrabBike is a new service integrated on the same GrabTaxi application, helping passengers to book motorbikes in the nearest area easily, conveniently and safely. Just open GrabTaxi app, select the itinerary, select GrabBike, the nearest motorbike driver will pick you up.

GrabBike service is not limited to a motorbike driver only, anyone from office staff to students and students only need a motorbike and a smartphone can become a GrabBike driver to increase revenue. import.

The use of GrabBike will bring peace of mind to customers because of the information of the driver (*name, identification image, license plate and phone number*). In addition, customers do not worry about being '*challenged*' because as soon as they choose the itinerary, the system will display the exact amount of money they will pay. For drivers, GrabBike brings more customers to help increase income. The driver can pick up guests everywhere, no charge for yards and especially secure when picking up strangers, guests away .
