

Roblox: A Guide to Collecting Free Items in Spotify Island

Spotify Island is the first step into the metaverse of one of today's leading music streaming platforms - Spotify. The developer promises that this will be a paradise for music lovers, providing a great entertainment experience that combines games and tunes.

Join Spotify Island, everyone will discover a world full of music, quests, parkour action and more. To celebrate, Spotify Island also comes with 4 free avatar items that players can collect by following the instructions below.

Instructions to collect free items in Spotify Island

To collect all 4 free items included in Spotify Island, players will need to complete various missions and earn corresponding badges in turn.

To access these missions and track your progress at any time, find and click the checkmark icon on the right side of the screen once you've entered the game. This will open the task menu as shown below.

The list of 4 items players will receive for free when completing tasks in Spotify Island is as follows:

1. Hwaiting (???): Complete the tutorial
2. 5 Petal Backpack: Collect all 20 musical notes
3. Annyeong (?): Find and dance on 13 different types of mushrooms
4. Floating Boombox: Activate 10 music cave sounds and 10 music trampoline sounds.

Complete tutorial

When entering Spotify Island, people will see a row of green arrows pointing to different locations on the map. This is a guiding arrow so follow it to each location to complete the tutorial quickly.

Once you've reached the final location, the Effects Store, select any purchasable Bubble effect and press Buy to complete the tutorial. At this time, the Hwaiting emoji (???) will be unlocked.

Collect musical notes

Fortunately, the 20 notes scattered across the Spotify Island map are easy to find. In fact, people could have collected the first 2 notes just by completing the tutorial.

The player can find the first note by following the portal to the main area. Immediately after landing on the ground, the character will automatically collect it.

After completing the tutorial, gamers will be able to explore the rest of the map on their own. The best way to collect the remaining notes is to simply follow the parkour course held all over Spotify Island.

The notes are all easy to find, only the last one will require climbing. At this point, find the stack of watermelons located near the guide gate, climb them to reach the location like the image below.

To get the last note, the player needs to collect at least 1000 Hearts to be able to unlock the Tree portal. Since the heart revives very quickly, this shouldn't be too difficult.

Once you have unlocked the gate, use it to get to the location as shown below. To collect the last note, jump down so that the character lands on any of the notes below.

After collecting all 20 notes, the Collect all notes badge! will appear on the screen and the corresponding 5 Petal Backpack item will be added to the inventory.
