

## Rock Pegasus 520: 9650M GT video power

The first Notebook in the world to date has the power of the latest 9650M GT graphics card from NVIDIA called Pegasus 520.

**Rock - the popular "computer maker" in the British Notebook market today, announced: the world's first Notebook to date has the power of the latest 9650M GT graphics card from NVIDIA called Pegasus. 520.**

9650M GT is a series of cards with dedicated VRAM 1G, plus NVIDIA's second-generation "PureVideoHD" image display and support "full 1080p" mode.

Pegasus 520 is a Notebook with a 15.4-inch wide screen, the 520 inside is an Intel T9500 Core 2 Duo processor paired with 9650M GT to create a perfect, extremely powerful Pegasus 520. Besides, DDR2 support can be upgraded to 4GB and HDD up to 320GB at a rotation speed of 7,200rpm.

By providing both Bluetooth and Wi-Fi connectivity a / b / g / n and a fingerprint reader plus a 2 megapixel webcam, Pegasus 520 is not only flexible in accessing the Internet world but also a very safe "holder". Every processing performed on the machine gives the user a "quick wind" feel when the reliable platform of the processor Centrino 2 is set up to provide processing speeds of up to 2.53 GHz.

Equipment is almost all ports including: 4 USB 2.0 ports, eSATA, HDMI, Firewire, VGA, Gigabit Ethernet, ExpressCard and "8-in-1" memory card reader so Pegasus 520 will not have to receive any complaining about the "lack of" user portals - including those with the highest demand. Add "pride" when equipped with Blu-ray format disc reader.

The weight of Pegasus 520 weighs 2.9kg with the corresponding size of length x width x thickness: 367 x 270 x 31mm. The Pegasus 520 is now officially available with a selling price of 1,863 USD including VAT.
