

Roles and abilities of all characters in Propnight

Propnight is a survival horror game similar to Dead by Daylight with characters, divided into 2 roles as survivor and killer.

However, what makes this game different is that the survivalist characters can transform into props (props, items) to hide from the pursuing killer. The mechanics are similar to PropHunt, a game mode from Garry's Mod. They also have distinct abilities for survival in the game.

Besides, each killer character will also possess different abilities that players of this role need to know to take advantage of it in catching survivors.
