

## Sager NP5160, 'terrible goods' good price

Sager NP5160 is equipped with a 'terrible' configuration with Intel Core i7-2630QM processor and Nvidia Geforce GT540M graphics card, this model costs about 24 million VND.

**Sager NP5160 is equipped with an "enormous" configuration with Intel Core i7-2630QM processor and Nvidia Geforce GT540M graphics card, this model costs about VND 24 million.**

Sager was originally an original equipment manufacturer (OEM) based in California, USA. This brand is still quite new in Vietnam, but in the world this is a manufacturer of gaming models that are highly appreciated, even compared to Alienware.

One of the first models to appear in Vietnam in the form of portable is the Sager NP5160 model (otherwise known as Clevo W150HNQ) equipped with very good configuration with 2 GHz Intel Core i7-2630QM processor, set 4GB RAM, 320GB hard drive with 7,200 rpm, Nvidia Geforce GT 540M graphics card with 1GB VRAM with 2 USB 3.0 ports.

Currently, HanoiLab store (Pho Vong, Hanoi) and SaigonLab (Pham Viet Chanh, Binh Thanh, Ho Chi Minh City) are selling this model at a reference price of about VND 24 million.

**Here are some real photos of Sager NP5160 in Vietnam:**

Sager has a glossy plastic design with sunken sager logo in the middle.

Sager NP5160 is equipped with a 15.6-inch standard Full HD 1,920 x 1,080 pixel LED backlight screen.

Chiclet-style keyboard with separate number keys.

Function keys like taking pictures, power, turning off the sound or turning off the wireless connection.

Sager NP5160 allows switching using discrete graphics and integrated graphics chip with a button on the top of the machine to increase performance.

Machine hinge.
