

Samsung Galaxy S10 users are about to enjoy some of the unique features that are only available on the Note 10

The receipt is currently being released by region and is expected to be completed this month.

Both the Galaxy Note 10 and Galaxy S10 are the best premium smartphones in the world in general and of Samsung in particular in 2019. However, between the two top flagship models, there are still relatively clear hierarchies.

The Note series has always been Samsung placed on the 'upper tray' compared to the S series, and the 10th version of these two models is no exception. Note 10 has a number of hardware and software utilities that the S10 does not have, but this will soon change when the Korean manufacturer has decided to bring some of the powerful features of Note 10. down for the S10 series. In a blog post, Samsung said:

"Samsung Electronics has launched a new software update for Galaxy S10e, S10, S10 + and S10 5G, which comes with some powerful features, which are exclusive to the Galaxy Note10 to enhance the user experience for users. with our flagship product lines'.

First, the Galaxy S10 will add a Gallery app that was previously only found on Note 10. This means that Galaxy S10 users will be able to quickly search for their favorite photos or videos with how to use simple key phrases like 'Cats' or 'Dogs' in the image gallery.

Another feature of the Note 10 coming soon on the S10 is the 'Media' option, in the settings panel. This option offers content recommendations from various multimedia streaming applications, and allows you to control other wirelessly connected devices such as Bluetooth speakers and Samsung smart TVs.

The Galaxy Note 10's automatic Wi-Fi feature will also be available to Galaxy S10 users. With Auto Wi-Fi, S10 users will be able to automatically set up hotspots with other Samsung devices if they share a Samsung or family account.

Another powerful feature of the Note 10 that will be brought down to the S10 is AR Doodles, which allows users to add a personal touch to the video with funny, lively drawings without having to rely on the S Pen. In addition, a number of other photography features for the front camera such as Live Focus, Live Focus Video, and Night Mode will also be featured on the S10.

The receipt is currently being distributed by region and is expected to be completed this month.
