

Samsung Laptop was first launched in Vietnam

Two lines of R and N laptops are introduced by Samsung to Vietnam market with strong features and stylish designs

Two lines of R and N laptops are introduced by Samsung to Vietnam market with strong features and stylish designs .

Model R includes models R480, R430, R428. The highlight of R480 is the design of ToC (color interference) with a faded cover, the S-shaped submerged transparent alluring. DDR3 memory with the latest Intel Core i5 processor improves 30% performance compared to DDR2.

The R480 model has a well-designed design.

In particular, the combination of 16: 9 HD LED display with the latest graphics card nVIDIA GeForce GT 330M 1 GB helps R480 maximize the ability to handle and display images. In addition, the R480 also allows users to charge the battery from the USB port even when the phone is turned off.

Samsung R430 series.

Samsung R430 equipped with DDR3 memory, nVIDIA GeForce 310M graphics card, Intel Core 2 Duo processor and upcoming Intel Core i3, 16: 9 HD LED display, optical drive Super Multi Dual Layer. It is

designed with a black cover and diamond patterns, or with a silvery-colored finish, quite fashionable.

Samsung R428.

With Intel Core i3-330M processor or Pentium Dual Core, model R428 is capable of handling strongly. Energy-saving LED display, 6-cell battery, 802.11bg / n wireless, Failsafe anti-theft function, and data recovery solution will help users solve their tasks quickly. The machine uses technology to reduce scratches, making the surface always shiny.

Small size N (N150) series of compact, easy-to-carry designs are the ideal mobile solution. The highlight of Samsung N150 is the no-line design with a light but compact appearance, creating a mobile fashion style.

The N150 series is compact.

Intel ATOM N450 1.66 GHz processor with the latest technology and 1 GB DDR2 memory helps the machine to run well on Windows 7 operating system. N150 is suitable for mobile entertainment needs of users thanks to battery life. up to 11.5 hours and 160 GB large capacity hard drive. It has a webcam, 802.11bg / n wireless technology and Bluetooth 2.1, a 10.1 "anti-reflective screen that reduces glare.

All 4 products R480, R430, R428 and N150 use environmentally friendly, slim and lighter LED screens, especially for energy saving, which helps the battery last longer.

Price of N150 is VND 9,24 million, R428 13.42 million, R430 16.72 million and R480 is sold for VND 22 million.

Mr. Je Hyoung Park, General Director of Samsung Vina, said the company officially participated in Vietnam laptop market because this is a potential market, the rate of young population is high. " *Samsung tries to get 10% of the laptop market share this year,* " Park said.

Samsung laptops shipped in Korea in 1990 and sold to the world market since 1996. In 2008, the number of Samsung laptop orders ranked 10th globally and 6th in China.
