

## Samsung launched a 'super powerful battery' smartphone Galaxy M21 in Vietnam

Samsung Galaxy M21 is called a 'super powerful battery smartphone' with a battery capacity of 6,000 mAh, the largest on Samsung Galaxy phones to date.

Samsung has officially launched the Galaxy M21 smartphone in Vietnam market. Samsung Galaxy M21 is called a 'super powerful battery smartphone' with a battery capacity of 6,000 mAh, the largest on Samsung Galaxy phones to date.

With its super-powerful battery capacity, the Galaxy M21 will provide seamless work, entertainment, movie and gaming experiences. The demand for learning and continuous connection with friends and relatives when users have to spend most of their time at home is also optimized. With a huge battery capacity of 6,000 mAh, users can talk, video call or stream for long periods without interruption.

Galaxy M21 is equipped with 6.4 inch Super AMOLED screen FullHD +, Infinity-U design. Inside is a quad-core Exynos 9611 processor, 4GB of RAM and 64GB of storage, expandable with a microSD card up to 512GB.

Samsung equips this smartphone with 3 rear cameras. These include a 48MP main sensor, an 8MP ultra wide-angle camera, and a 5MP depth sensor. 20MP selfie camera

Samsung said with a battery capacity of 6,000 mAh, Galaxy M21 can talk for nearly 2 days, watch a movie for 1 day or listen to music 5 music continuously. In addition, this smartphone also has 15W fast charging.

Galaxy M21 will be pre-installed with Android 10, with One UI interface 2. There are two color options: 'Breakthrough Blue' and 'Strong Black', officially on sale from 01/04/2020 with the suggested retail price VND 5,490,000.
