

## Samsung out of Corby netbook

In addition to its compact design and impressive battery life, the netbook with the same name as the phone, Corby, Samsung has many color options.

**In addition to its compact design and impressive battery life, the netbook has the same name as the phone, Corby, Samsung has many color options .**

N150 was introduced by Samsung at the CES 2010 technology show earlier this year with its compact design and impressive battery life. Not only that, recently, the company also included many color options for the same name machine like the phone line, Corby.

Samsung Corby N150 has color options that are red, pink, yellow, blue, navy, glossy black, black and gray.

Corby N150 is equipped with Intel Atom N450 processor speed of 1.66 GHz, 1GB RAM, 250 GB hard drive, Intel GMA 3150 graphics chip.

The machine has a lot of colors to choose from.

N150 has anti-glare screen of 10.1 inches, WSVGA standard resolution 1,024 x 600 pixels.

It has theoretical battery life of up to 8.5 hours continuously.

USB port can be charged for mobile devices even when the device is turned off.

Corby is also the name of a Samsung phone line.

Both are aimed at users who are dynamic young.

Samsung N150 costs about 10 million VND.
