

Samsung portrays four legends of the Galaxy Note series

It can be said that the Galaxy Note is a high-end phablet line that has become Samsung's leading icon in the past few years.

It can be said that the Galaxy Note is a high-end phablet line that has become Samsung's leading icon in the past few years.

Not only does it carry a strong configuration, battery life, but the Note series can also be considered as a cure for the failures of the *Galaxy S Series* brother. After the unfavorable beginnings of S5 in the first half of 2014, the appearance of the Note 4 with unique lines and convenient features is extremely valuable.

Beginning to be launched in 2011, the first Galaxy Note has encountered a lot of skepticism about the practicality of a handheld device with a large screen, however, through many generations Samsung has gradually occupied Be sympathized by users. For now, invite readers to contemplate the portraits of 4 Galaxy Note series legend through infographic below.
