

# Samsung's premium products at MWC 2019

Here are the new products and technologies that Samsung introduced at MWC 2019, an important event for the 'big guys' in the mobile industry to introduce their latest products and technologies.

MWC 2019 - Mobile World Congress 2019 or MWC 18 takes place in Barcelona, Spain is an important event for the 'big guys' in the mobile technology industry to introduce their latest products and technologies, marking breakthrough changes.

Here are the new products and technologies that Samsung introduced at MWC 2019.

## New generation Galaxy S10

The Korean manufacturer has launched its most advanced smartphone line with the world's leading innovations and technologies at MWC 2019, the Galaxy S10 generation.

Samsung Galaxy S10e, the lowest priced version of the Galaxy S10, is still equipped with a configuration capable of weighing all tasks including the Exynos 9820 processor, 6GB of RAM and 128GB of internal memory. The device is equipped with AMOLED 5.8 inch Dynamic screen according to the Infinity-O flat design. The selling price of this product in Vietnam market is VND 15,990,000.

Samsung Galaxy S10 / S10 + has a stronger configuration than the S10e thanks to 8GB of RAM. Galaxy S10 / S10 + has screen size up to 6.1 inches, dual selfie camera allows users to get portrait photos of magic fonts. The Galaxy S10 and S10 + 128GB versions are priced at VND20,990,000 and VND22,990,000 respectively in the Vietnamese market. Galaxy S10 + costs VND 28,990,000 for the 512GB version.

Samsung will officially launch this trilogy on March 8, 2019.

In addition, Galaxy S10 + also has a special version with a terrible configuration: 12GB RAM and 1TB of internal memory for VND 33,990,000.

1. Configuration and price of Galaxy S10 trio, Samsung's super series has just officially launched
2. Samsung Galaxy S10 is a great product, but is it worth the upgrade?
3. Compare Galaxy S10E and iPhone XR: Where is the flagship model worth spending?

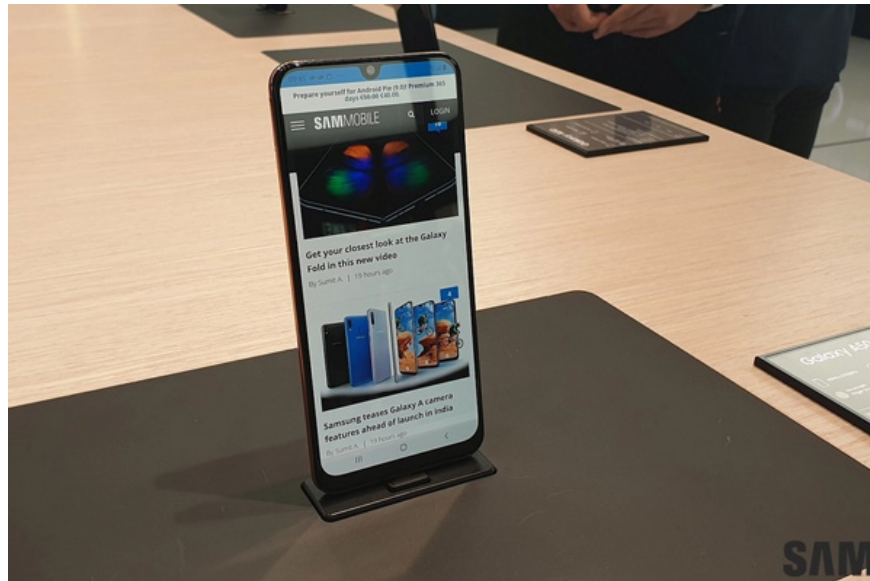

### **Galaxy A30 and A50**

This is a pair of mid-range smartphone segment of Samsung with impressive pages.

The Galaxy A50 is equipped with Exynos 9610 processor manufactured by Samsung, Super AMOLED panel, Infinity-U display technology with Full HD + resolution, fingerprint sensor under the screen. The rear camera of the camera includes a main camera with 25MP resolution - f / 1.7 aperture, a 5MP resolution camera with integrated Live Focus and super wide 8MP camera angles. Galaxy A50 has two memory versions for users to choose from: 4GB RAM / 64GB ROM and 6GB RAM / 128GB ROM. Its battery capacity is 4000mAh, with built-in fast charger.

Galaxy A30 has the same design as A50 in size, AMOLED panels, Infinity-U. Because of the cheaper price, the A30 is only equipped with a fingerprint sensor placed on the back, dual camera systems and a resolution of only HD + (1080 x 2340p). The configuration of the A30 is also reduced to the Exynos 7904 eight-core chip, which includes 1.6GHz and six-core 1.6GHz cores. The A30 also has two versions of memory including 3GB RAM / 32GB ROM and 4GB RAM / 64GB ROM.

Samsung will launch this product duo to India in the next few days but their prices have not been disclosed yet.

### **Galaxy Fold - Smartphone fold screen**

Samsung introduced Galaxy Fold at the event in San Francisco, USA. But at MWC 2019, the phone company from Korea also took an important position to display its first folding screen smartphone.

1. Samsung launched Galaxy Fold, 7.3inch folding screen smartphone, 12GB RAM
