

# Scan for viruses - spyware does not need to install software

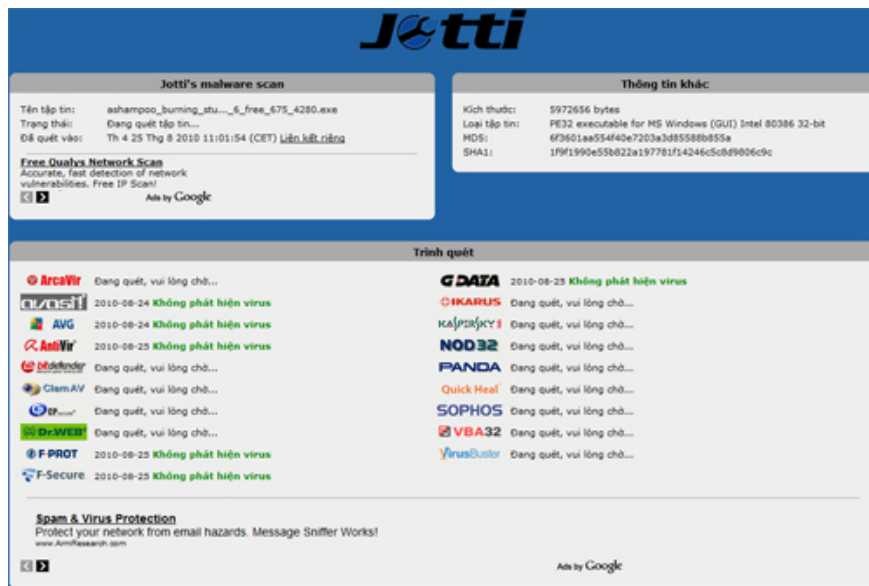

Do you suspect that your computer is infected with the virus, but the Anti-virus program on your computer is inefficient or your computer has not had any program to fight the virus?

**TipsMake.com - Do you suspect that your computer is infected with the virus but that the Anti-virus program on your computer is ineffective or your computer has not had any program to fight the virus?** The following websites will help you immediately scan your computer for viruses using online tools. This is a website from manufacturers of reputable Anti-virus-malware software, you can choose which products you trust or "sure" especially scan each product one by one.

## Scan files on your computer with Kaspersky

### Jotti

Website: <http://virusscan.jotti.org/vn>

Jotti's malware scan is a free online service that allows you to scan suspicious files through several antivirus programs. The scanner used for scanning is the Linux version, so there may be some differences from the Windows version. The limit for each file uploaded to scan is 20MB.

## Kaspersky

Website: <http://www.kaspersky.com/scanforvirus>

If you discover a suspicious file on your computer, or suspect a program you just downloaded from the Internet, check out such files here.

Note that you can only check 1 file with a size of less than 1MB in 1 upload time.

### **BitDefender Online Scanner**

Website: <http://www.bitdefender.com/scanner/online/free.html>

Combined with the BitDefender scanning toolkit, BitDefender Online Scanner is a fairly powerful Antispyware and Antivirus tool that protects your computer. Just access the browser and select Start Scanner, the program will wipe from system memory, boot files and drives on your computer without having to install the program on your computer.

You may have to download and install ActiveX the first time you use it.

### **ESET Online Scanner**

Website: <http://www.eset.com/online-scanner>

## ESET Online Scanner

### ESET Online Scanner

ESET Online Scanner is a user friendly, free and powerful tool which you can use to remove malware from any PC utilizing only your web browser without having to install anti-virus software. ESET Online Scanner uses the same ThreatSense® technology and signatures as ESET Smart Security/ESET NOD32 Antivirus, and is always up-to-date.

**IMPORTANT:** Administrator privileges are required to run ESET Online Scanner

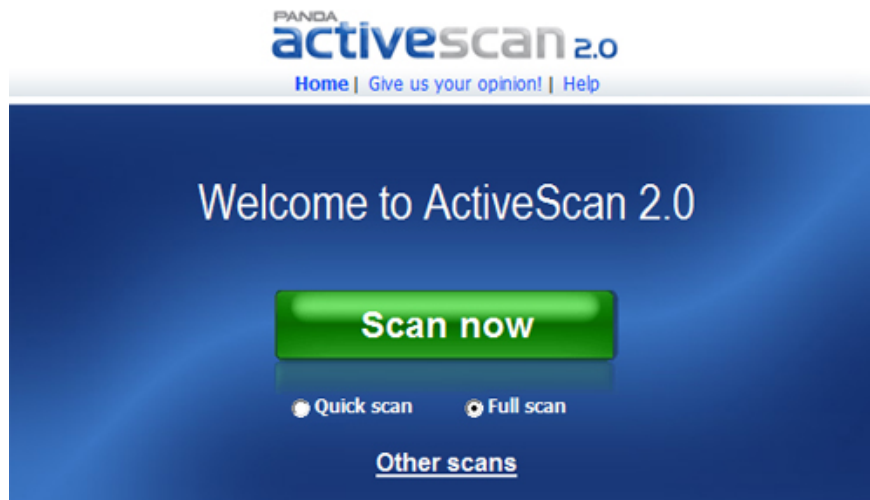

ESET Online Scanner

ESET Online Scanner is a powerful, free and user-friendly virus scanning tool. You can use it to remove malicious programs on your computer without installing any tools, just access it via a web browser. ESET Online Scanner uses the same technology and identifies ThreatSense® as its ESET Smart Security / ESET NOD32 Antivirus products.

You may have to download and install ActiveX the first time you use it.

### Panda ActiveScan 2.0 - Free Antivirus

Website: <http://www.pandasecurity.com/activescan/index/?track=100723>

Just click **Scan now** and you'll see the operation right away. If this is your first time using this tool to scan your computer, you may have to download and install ActiveX on your computer.

### McAfee FreeScan

Website: <http://home.mcafee.com/Downloads/free-virus-scan?ctst=1>

## FreeScan

McAfee FreeScan helps you detect thousands of viruses on your computer. Based on the award-winning McAfee VirusScan engine, FreeScan searches for viruses, including the latest known "in the wild" viruses, and displays a detailed list of any infected files. Should viruses be found, FreeScan even provides links to more information about the viruses and what you can do to clean your system.

**End User License Agreement** 

NOTICE TO ALL USERS: PLEASE READ THIS CONTRACT CAREFULLY. BY CLICKING THE ACCEPT BUTTON OR INSTALLING THE SOFTWARE, YOU (EITHER AN INDIVIDUAL OR A SINGLE ENTITY) AGREE THAT THIS AGREEMENT IS ENFORCEABLE LIKE ANY WRITTEN CONTRACT SIGNED BY YOU. IF YOU DO NOT AGREE, CLICK ON THE BUTTON THAT INDICATES THAT YOU DO NOT ACCEPT THE TERMS OF THIS CONTRACT AND DO NOT INSTALL THE SOFTWARE. IF YOU PURCHASED THE SOFTWARE ON TANGIBLE MEDIA (e.g., CD) WITHOUT THE OPPORTUNITY TO REVIEW THIS LICENSE AND YOU DO NOT ACCEPT THIS CONTRACT, YOU MAY OBTAIN A REFUND OF THE AMOUNT YOU ORIGINALLY PAID IF YOU: (A) DO NOT USE THE SOFTWARE AND (B) RETURN IT, WITH PROOF OF PAYMENT, WITHIN THIRTY (30) DAYS OF THE PURCHASE DATE TO THE LOCATION FROM WHICH IT WAS OBTAINED.

Note: McAfee FreeScan is a complimentary service for members of McAfee.

McAfee FreeScan will help you find and detect thousands of viruses on your computer. Based on McAfee VirusScan's virus search technology, FreeScan will search and list details of virus-infected files (if any) on your computer. After displaying that information, FreeScan will provide links to more information about the virus found and how to remove it from the system.

You may have to download and install ActiveX the first time you use it and only support Internet Explorer.

## Symantec Virus Detection

Website: Symantec Virus Detection

 Symantec Security Check

> SECURITY INFORMATION   > FREE SECURITY ALERT   > SECURITY SOLUTIONS   > HELP

< Home   Security Scan   **Virus Detection**

Virus Detection requires ActiveX controls to check your computer for known threats.

Downloading ActiveX Controls...

Similar to the above tools, Symantec Virus Detection will help you scan your computer cleanly through a browser. There is no need to install software that makes computer heavy when using but still be assured because the machine is still "clean" is the advantage of these tools.

You may have to install ActiveX the first time you use it.
