

# Search around here, how Zalo used to find friends, interface 2020

Search around Zalo, this is a feature that helps you find friends around where you live, make friends and contact them easily.

At the end of 2019, Zalo decided to hide those two features, 'Chat Room' and 'Search around here'. Therefore, normal users will be very difficult to use this feature to make friends with people around if not dig deeper. So in this article I will guide how to use this feature on Zalo, update the latest interface 2020.

## I. What to look around here on Zalo?

First let's find out more and feature this utility offline. Searching around here is one of the features equipped by Zalo from the very first days of this application was launched, so surely those who have used Zalo for a long time must have been no stranger to this feature.

Users only need to turn this feature on and use the location on the device to conduct a scan of the people who are using the Zalo account at the closest distance to them, which can be neighbors, friends or relatives are using Zalo that you did not know.

In addition, users can also use filters to select the appropriate gender and age to make friends.

It can be said that this feature works very effectively and gives Zalo users the opportunity to get acquainted with people living around their area, especially those who are still single and want to make four friends.

That is also why the Find Around here feature on Zalo has caused a fever for users so much.

## II. Turn on the search feature around here on Zalo phone

Although the search feature has been hidden around on the latest versions of Zalo, users can still continue to use this feature by following the steps I will follow:

**Step 1** : Open the Zalo app on your phone, click on the search bar at the top of the application and type the phrase '*search around here*'.
