

See the full set of Tet photos taken with vivo V40 5G at extremely hot check-in locations

At hot check-in locations during the Lunar New Year such as Ben Thanh Metro, Vietnamese Tet festival, Thanh Nien Cultural House, vivo V40 5G becomes a powerful assistant to help the 'muses' have the best photo sets.

Lunar New Year is not only a time for family reunions but also an ideal time to capture the brilliant moments of the beginning of the year. At "hot" check-in locations such as Ben Thanh Metro, the Vietnamese Tet festival at the Youth Cultural House, or the sparkling red street of Luong Nhu Hoc, the spring atmosphere is everywhere. These are vibrant cultural rendezvous points, attracting many young people and tourists to visit and take photos together, creating a colorful spring picture.

The color transition and background blur are not only smooth but also quite realistic. The levels of background blur shown have clear changes according to the shooting distance, creating the feeling of shooting with a professional camera.

With Tet photo spots always packed with people, the AI Object Removal feature of vivo V40 5G becomes extremely necessary. With just a simple touch, you can turn crowded photos into perfect ones, focusing on the main subject, removing all unnecessary elements quickly and accurately.

In addition, if the photo is blurred during shooting, vivo V40 5G with AI image enhancement feature. With just one operation, v40 quickly recognizes and optimizes sharpness, adjusts details as well as light, helping you 'save' your favorite photos that were accidentally taken imperfectly before.

The front camera has always been one of vivo's strengths, with a 50MP sensor and a 20mm lens angle that can take detailed photos even with large group selfies, allowing you to take selfies with friends and family this Tet holiday.

Not only does it leave an impression with its impressive photography capabilities thanks to its collaboration with ZEISS, the vivo V40 5G also stands out with its modern design and powerful performance. This smartphone not only helps you capture all the memorable moments of Tet but also shows off the youthful personality with its comprehensive 'pro everyway' upgrade. This Tet, let the vivo V40 5G accompany you in the first days of spring, capturing every sharp and vivid frame with just one touch.
