

## Selling laptop in August 2

Low-cost models continue to dominate last month in the Asian laptop market, with Acer and HP still the two brands most concerned by consumers, when they feature 5 of the 10 best-selling laptop models. Best.

**Low-cost models continue to dominate last month in the Asian laptop market, with Acer and HP still the two brands most concerned by consumers, when they feature 5 of the 10 best-selling laptop models. Best.**

In February, the top of the best-selling Asian laptop chart changed hands, when the Compaq Presario V3700 series rose, pushing last month's champion of the Acer Aspire 2920Z to second place. However, overall, Acer still dominates when there are 3 models standing in the second, third and fifth positions, while the HP outside the top is only the HP 520 stands at the 8th position.

Dell XPS M1530 continues to be favored by Asian gamers, because this model has an impressive appearance, strong configuration is sold at a price not too high as M1730. Meanwhile, the "Asus Eee PC" craze has shown signs of cooling down, as the product was pushed to the bottom of the chart last month.

Following is a list of 10 best-selling laptop models in February in Asia, published by technology magazine Cnet.

### 1. Compaq Presario V3700 series

Compaq Presario V3700 has performed spectacular usurpation over the past month.

With an Intel Core 2 Duo T7500 2.2 GHz processor, 2 GB RAM and an 80 GB hard drive, the HP Compaq Presario V3700 series configuration is quite attractive to mainstream users. Not only that, the structure of the machine is also very firm, providing maximum peace of mind for users. In addition, HP Compaq Presario V3700 series is also equipped with DVD burner, remote control and pre-installed Windows Vista Home Basic operating system.

*Reference price in Vietnam : 635-1,300 USD, depending on configuration.*

## **2. Acer Aspire 2920Z**

Acer Aspire 2920Z is the ideal choice for those with less money. *Photo: Verkkokauppa .*

Despite losing the top of the table, but the second position shows that the Acer Aspire 2920Z still occupies a lot of sympathy for Asian consumers. That's because this machine is quite abundant in connection, and the performance of the device is also quite good compared to other cheap models. However, the Aspire 2920Z's audio system is not impressive, while the camera does not have a digital video output port. If equipped with an HDMI port, this will be the perfect choice for those with less money.

*Reference price in Vietnam : 815 - 907 USD, depending on configuration.*

## **3. Acer Extensa 4620Z**

Acer Extensa 4620Z does not support Bluetooth. *Photo: Zdnet .*

Acer Extensa 4620Z also dropped a step from the previous month. This device is equipped with Intel Pentium Dual Core T2330 1.6 GHz processor, 1 GB RAM and 120 GB hard drive. In addition, it also comes with a multi-format DVD burner, Intel GMA X3100 graphics card and pre-installed Windows Vista Home Premium operating system. Although not supporting Bluetooth connectivity, but the remaining features of Acer Extensa 4620Z are capable of meeting the requirements of most common users.

*Reference price : 781 USD.*

#### **4. Apple MacBook-Core 2 Duo**

Apple MacBook is both fashionable and powerful. *Photo: Amazon .*

This is the new version of MacBook upgraded by Apple, with Intel Core 2 Duo T7500 2.2 GHz processor, 1 GB RAM, 160 GB hard drive, 2-layer optical drive and Leopard operating system, while looks The device is still full of charm. However, this 13.3-inch laptop still doesn't have a memory card reader, which limits its ability to support entertainment.

*Reference price in Vietnam : 1,440 - 1,890 USD, depending on configuration.*

## **5. Acer Aspire 4520**

Acer Aspire 4520 uses dual-core chips from AMD and Nvidia graphics cards. *Photo: Cnet .*

Although not equipped with Intel's Centrino mobile processing technology, but the AMD 2.2 GHz dual-core processor and Nvidia discrete graphics are still enough to help Acer Aspire 4520 compete fairly with more expensive competitors. so many, so much. Although 512 MB RAM and 80 GB hard drive are not enough to meet the needs of heavy gamers, this machine can perfectly run casual games or games developed on MMPOG.

*Reference price : 780 USD.*

## **6. Sony VAIO VGN-CR35G**

Sony Vaio VGN-CR35G has a variety of stylish casing. *Photo: Cnet .*

The stylish laptop Vaio VGN-CR35G is worn by Sony with many attractive shell colors such as red, blue, white, pink and black. The device is equipped with Intel Core 2 Duo T8100 2.1 GHz processor, 2 GB RAM and 200 GB hard drive. In addition, Sony Vaio VGN-CR35G also has a DVD burner, ATI Mobility Radeon X2300 discrete graphics card and pre-installed Windows Vista Home Basic operating system.

*Reference price : 1,400 USD.*

## **7. Lenovo Y410**

Y410 is Lenovo's popular laptop model. *Photo: Tech2 .*

Lenovo's Y410 universal laptop line is fully equipped with entertainment support, like a 1.3 Megapixel webcam, combined with Veriface technology, which allows users to set the password for the device with their own faces. In addition, the Lenovo Y410 also has a powerful sound system, with 2 1.5 Watt stereo speakers and a 2 Watt power subwoofer.

*Reference price in Vietnam : 900 - 1,000 USD, depending on configuration.*

## **8. HP 520**

HP 520 is designed to target business users. *Photo: Picasaweb .*

Although the HP 520's original target was business users, the low price of this device also made many home users excited. The Intel Core Duo T2050 1.6 GHz processor is quite outdated, but the operating system preinstalled with Windows Vista Business can be considered an advantage of the HP 520.

The current selling price of this product line in Vietnam market ranges from 530 to 910 USD, depending on configuration.

## **9. Dell XPS M1530**

Dell XPS M1530 is the most popular gaming laptop in Asia. *Photo: Krunker .*

Despite its slim and light body, the Dell XPS M1530 is a professional gaming machine. The device is capable of running heavy game applications, thanks to the Intel Core 2 Duo T7500 2.2 GHz processor, 2 GB RAM, 200 GB hard drive and discrete Nvidia GeForce 8600M GT graphics card. Besides, this 15.4-inch laptop is also equipped with a fingerprint sensor and mini remote control, hidden in the ExpressCard card slot.

*Reference price : 2,000 USD.*

#### **10. ASUS Eee PC 701**

Asus Eee PC has the advantage of appearance and price. *Photo: Finalsense .*

Last month, Asus' ultra-small "laptop Eee PC 701 had to displace the Dell XPS M1530 to come down to the bottom of the rankings.

Although only equipped with Intel Celeron M ULV 900 MHz processor, 512 MB RAM and solid-state SSD storage capacity up to 8 GB, but with good looks and the price is only about 400 USD, Asus Eee PC still Attracting quite a lot of consumers. In addition to webcams and three USB ports, the device comes with a built-in Linux operating system. However, the Asus Eee PC is not equipped with an optical drive, and the keyboard of the device is a bit cramped.
