

Series of creative street art makes everyone startled

The street paintings of Cosimo Cheone Caiffa have turned the tedious walls into works of art with messages about the joys of life around them.

Street art and tedious walls are things that seem to be born for each other. Once known as a vandalism landscape, but now street art has been recognized worldwide. Many artists have turned the empty walls out there into impressive works of art.

Street Art - What is street art?

Street Art - Street Art is a generic term for visual art forms created in public places. The best known street art is graffiti.

Initially, Street Art - Street Art was created by young groups living in the city to mark territory or express political views. Today, Street Art has become a medium of beauty and urban renewal. Some even use Street Art as an advertising and marketing tool.

Cosimo Cheone Caiffa, a street artist currently living in Milano, Italy with good imagination and ingenious techniques, has created 3D works that will surprise viewers.

The work of Cosimo Cheone Caiffa has turned the tedious walls into works of art with messages about the joys of living around.
