

Series of shortcuts for Facebook followers

Although not much, Facebook has also designed a number of key combinations so that users can quickly access important functions of social networks without using a mouse.

Although not much, Facebook has also designed a number of key combinations so that users can quickly access important functions of social networks without using a mouse.

If you use the Chrome browser on a Windows computer, you can make the following shortcuts:

Alt + 1: Return to the Home page.

Alt + 2: Access your Timeline / Profile.

Alt + 3: Access the Friends folder to find friends, connect .

Alt + 4: Access Messages (messages, chat .)

Alt + 5: Access the Notifications notification section

Alt + 6: Access the General Account Settings account settings

Alt + 7: Go to Privacy Settings privacy settings

Alt + 8: Access Facebook's official Facebook account.

Alt + 9: Visit the Facebook Terms and Policies page.

Alt + 0: Update the Facebook Help Center (Help Center).

Alt + m: Open the item for writing Facebook messages.

Alt +?: Lookup

Press Alt + m to compose and send the message.

If using Firefox on a Windows computer, replace the **Alt** key with **Shift + Alt** , for example Shift + Alt + 1, Shift + Alt + 2 .

Similarly, the formula on Mac OS is:

- Firefox: Control + number / m /? (eg Control + 1, Control + 2 .)
- Chrome: Control + Option + number / m /?
- Safari: Control + Option + number / m /?
