

Set the default option for downloading HD videos from the iTunes Store on iPhone via iTunes.

Setting the default download mode for HD videos from the iTunes Store makes it more convenient for you to download high-quality HD videos from the iTunes Store. To learn how to set this up, please read the article below.

iTunes is an application that helps you connect iOS devices to your computer, making it easy to share data, videos, and access applications. For added convenience, you can set the default settings for downloading HD videos from the iTunes Store by following these steps:

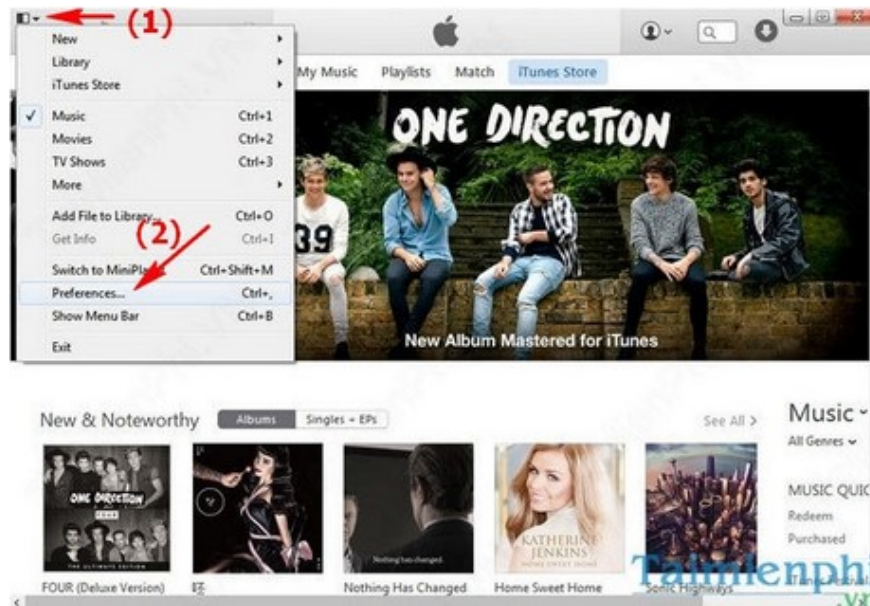

Instructions on setting the default settings when downloading HD videos from the iTunes Store.

Typically, HD videos on the iTunes Store exist in the following formats:

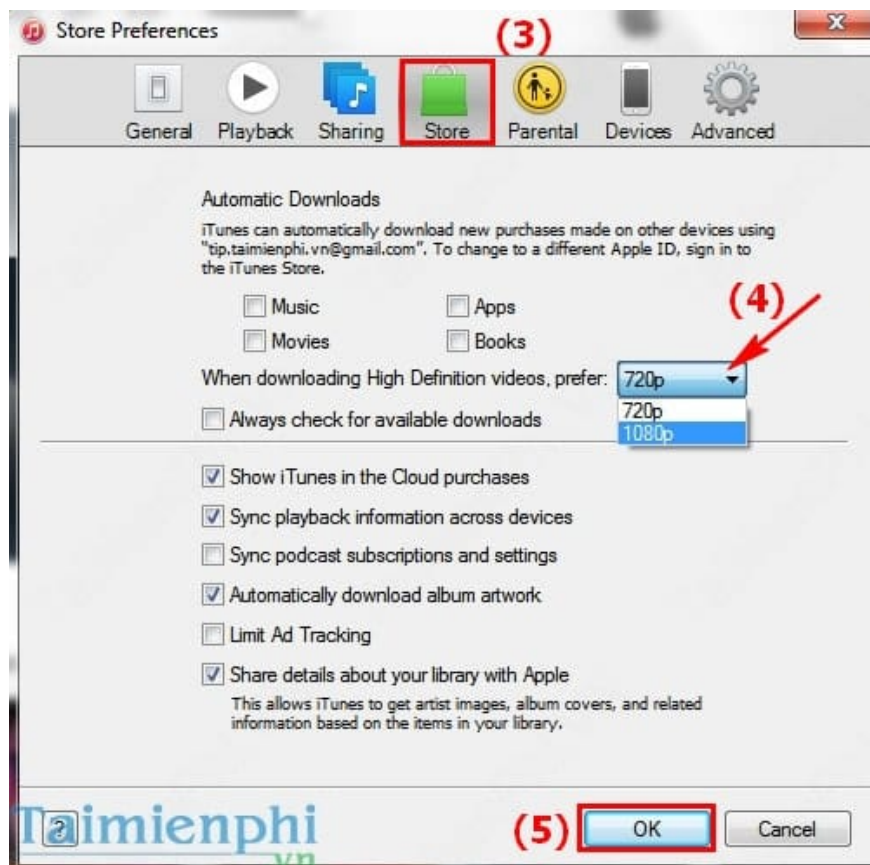

- **720p** - (screen resolution of 1024 x 768 or higher)
- **1080p** - (screen resolution of 1280 x 800 or higher)

To set the default settings when downloading HD videos from the iTunes Store, follow these steps:

- Launch iTunes after installing it on your computer. If you haven't already downloaded **iTunes**, then **download it**.
- Click on the **Menu** icon as shown below and select **Preferences** (or press the **Ctrl + ,** key combination).

- Switch to the **Store** tab in the window that appears. In the "**When downloading High Definition videos**" section, **prefer** to select the default HD video format when downloading.

Above, we have guided you on how to set the default mode when downloading HD videos from the iTunes Store. This is a popular application widely used to help you access and copy data on iOS devices easily. Besides using iTunes, you can also refer to and use iTools or Syncios, which are also quite effective.

Browsing Facebook on your phone has become a current trend, so encountering many interesting videos shared on Facebook makes users want to download them to their devices. There are many ways to download Facebook videos to your phone that you can refer to and use. If you don't know how to download Facebook videos to your phone effectively, you can check out TipsMake.
