Step 6: To continue with the installation process, you will have to allow SkyDrive to access your location. So, click the **Allow** button to continue.

Allow access to location?

SkyDrive
Microsoft Corporation

SkyDrive needs to know your location to work correctly. If you don't want to allow access to your location, tap Cancel and the app won't be installed.

Each time SkyDrive requests your location, Microsoft will collect information about your location to provide and improve the location services. The information is not used to identify or contact you.
