

# Shock: A pair of Avengers: Endgame premiere tickets are priced at 215 million on eBay

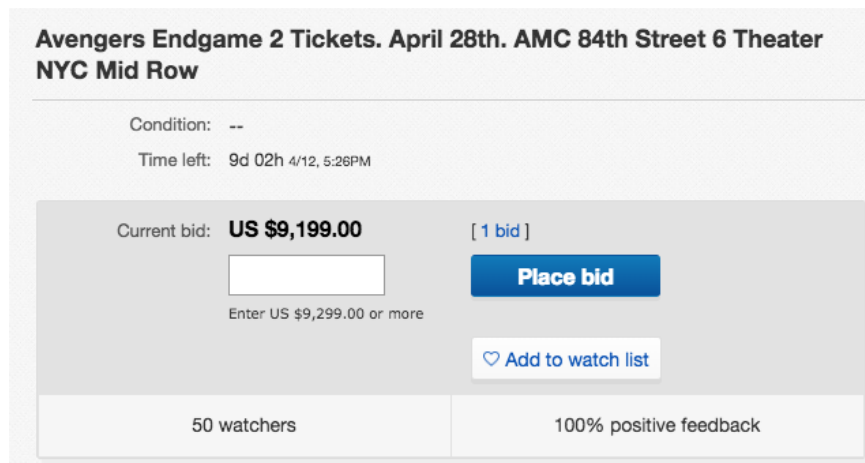

A fever called 'After all' will make many MCU fans pay dearly.

As an important key for the MCU, the *Endgame* premiere ticket is becoming a hot item on some e-commerce sites - especially eBay.

According to *Deadline*, the number of pre-orders for this Marvel super product is more than 3 times that of *Infinity War*, within 1 hour of opening sale. This record knocked out *Star Wars: The Last Jedi*, one of the most popular movies in 2017. Fandango, the largest ticket booking website in the US is also in crisis due to continuous collapse, AMC cinema chain also met the same situation.

On reddit, many fans complained that, even when the seats were selected, they were kicked off the website.

Therefore, it is not surprising that the first tickets were auctioned off. It can be said that this is a new "madness" on eBay: Yesterday (3/4), the starting price for *Endgame* premiere tickets was 500 USD, step price of 50 USD. And today, that number is far more terrifying . 20 times.

A trustworthy dealer on eBay offered the price for the pair of tickets to open *Endgame* on April 28 (US) up to 9199 USD (nearly 215 million VND).

In fact, *Endgame* is also shown two days earlier in Vietnam, it is unclear whether this situation will occur again. On the internet, most people who spend a lot of money to buy *Endgame* tickets said that they want to be the earliest to know the fate of the MCU instead of being spoiled.

According to *Deadline*
