What is smart sanitary equipment?

Smart toilet has 2 main types of smart sprinklers to fit into the toilet seat and smart toilet lid. With the basic function like a spray nozzle, it helps to clean the lower part of the body after solving the sadness without using toilet paper, so the smart sanitary equipment brings a clean, smooth feeling to users. . In addition, users who use the device only need to operate on the control panel, not need to hold the faucet directly by hand like regular sprays, so it feels more comfortable and hygienic. That is also the reason that this product line is very popular in Japan, Korea, installed at many luxury hotels in Vietnam and is also being trusted by the common users in Vietnam. bathing my house.

Should Luva Bidet be used?

Currently there are many brands in the market that produce smart sanitary equipment such as Hyundai Bidet, Daewon Bidet, Blooming Bidet, Chungho, Toto, Inax . but Luva Bidet still finds its own place thanks to the advantages Highlights are as follows:

Korean technology, reasonable price

Produced and installed based on **100% Korean technology** , with a **long warranty period of 3 years** and a **real life of up to 10 years** , Luva Bidet's price is very 'soft' . , **only from 650 thousand - 2 million VND**, it is suitable for the budget of every family, while saving significantly compared to the cost of buying toilet paper, it also brings convenience and comfort when being automatically cleaned in a way. comfortable, pleasant.

Safe material, luxurious design, environmentally friendly

Luva Bidet uses **ABS plastic** material safe for health and has a compact design with white color that brings absolute clean feeling, will definitely make you satisfied. In addition, thanks to the replacement of toilet paper and absolutely no use of electricity during operation, this device is also very environmentally friendly, in accordance with modern green lifestyle.

The Luva Bidet smart toilet seat can automatically open and close.

Utility and user friendly

One of the main advantages of Luva Bidet is the great benefits for the health and convenience of life that the product brings:

1. Rinse with gentle water, reduce the risk of gynecological diseases and infections for women, support and reduce the risk of hemorrhoids, constipation .
2. Wash hose has a self-cleaning mode to ensure hygiene when used.
3. Helping children become more independent, can go to the bathroom without the support of parents or adults.
4. Minimize and limit the risk of obstructing the toilet when not using toilet paper.
5. Completely free of additional installation space, it is possible to install quickly and easily with all types of toilets.
6. Without using the hand to hold the hose directly, moderate and strong water force is adjustable, the sprayed water beam is precisely designed so that it does not worry too much water causing pain or splashing on the clothes or to the floor when using.

Luva Bidet gives water jet precise spray with moderate force.

Which good Luva Bidet should be purchased?

Currently Luva Bidet has launched two main product lines: **smart wash nozzle and smart toilet lid**. Wash hose can be installed directly on the toilet and has the advantage of low cost of less than 1 million VND. The smart toilet lid has a bigger advantage than the spray nozzle which is extremely convenient for automatic opening and closing. The price of these two product lines differs from 700 to 800 thousand VND so you can optionally choose according to your budget for reasonable.

Now both of these Luva Bidet products have 2 versions, which are **usually cold water version and hot and cold version can be used with both cold water and hot water** to clean. If your family has elderly people, children or live in areas with cold winters, choose the hot and cold version to ensure everyone's health in all weather conditions; otherwise, you just need to choose the regular version is also very good. The price of hot water is usually higher than 200-300 thousand VND compared to the normal version.
