## What is FastPokeMap?

1. In fact FastPokeMap only works on the browser, so you must always turn on the accompanying Browser application.
2. Scanning is only accurate within a radius of 50-60 meters. So if you sit still one seat continuously, it will not be accurate.

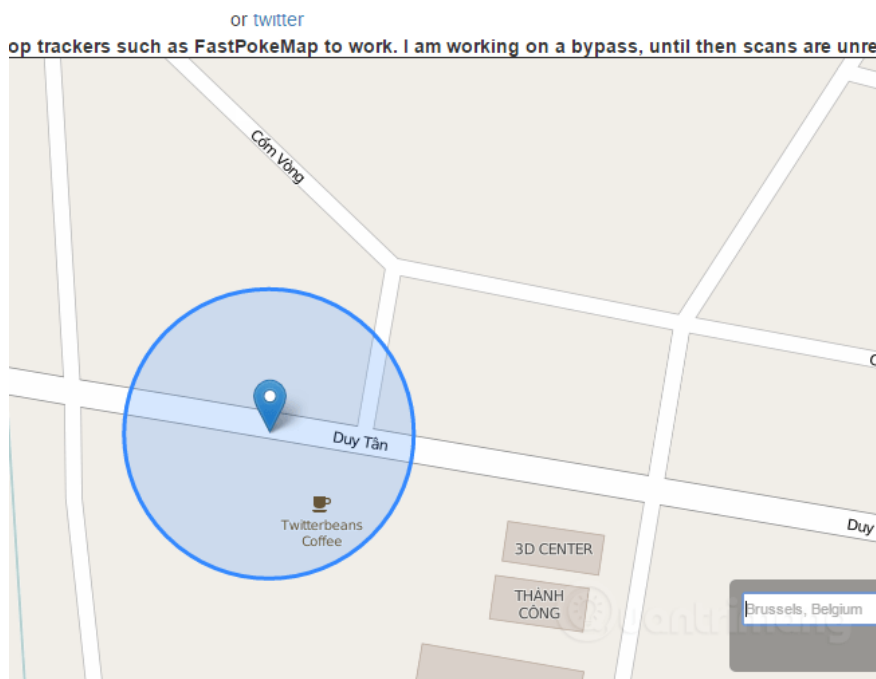

## How to use FastPokeMap?

Very simple, on a mobile phone or computer, you access the address:

1. <https://www.fastpokemap.com/>

Choose Allow or Allow if Chrome shows the message you want to access to know your location and address. Enter the location in the search box and press Enter to Search, or the browser will automatically display the surrounding area:

Hovering between up or down to zoom in or out, if any Pokemon is found around, FastPokeMap will display corresponding to the icon on the map, in that map circle or in the upper right corner of the screen . As here, I scanned and found no children around Duy Tan, Dich Vong Hau, Cau Giay areas. Note that on mobile, you turn off the screen rotation lock function to see in horizontal mode offline. **Wish you success with FastPokeMap!**
