

Situations should escape quickly in Rules of Survival

With certain situations in the Rules of Survival, players need to run away to save lives, without having to calculate too much.

In Rules of Survival, facing many dangerous situations will not be less, like when you go loot map, the ring is narrow, . In such dangerous situations to preserve your life, escape being the most successful, instead of attacking the enemy. Let's list the dangerous situations where you need to run away quickly, if there is a vehicle, the better in Rules of Survival.

1. Grounding and jumping slowly

With the first stage in the game, there is a need to limit fighting, so if you land where many people need to go elsewhere. First you need to find lots of weapons and ammunition to try to be safe at the early stages of the game.

2. The ring is shrinking

The ring will gradually shrink from all sides, which means that the farther the boundary in the ring is, the faster the area will shrink and vice versa. In this situation, users need to see where they are in order to make an accurate decision about the running time.

3. Loot from the supply box

In the process of playing you may pick up many items but the danger will always be lurking beside. So the fastest way is to kill other players and run back to their item, or someone's item has been destroyed before. When you have finished loot, you need to run quickly with some means.

4. The enemy has weapons

This is of course necessary to run away, hide behind obstacles or run out of the ring to avoid attacks from the opponent. Don't be foolish in front of the enemy even if you have a weapon in your hand. Because what if the enemy has weapons stronger than you? Please judge the situation first before acting.

5. The overwhelming enemy force

For those who fight team, duo or Squad, it is difficult for the members to get out of the game and leave you to fight. The best way is to run and not fight the opponent team.

6. Unable to locate the enemy

There are many gamers with the ability to shoot magic speed will soon make you 'out' of the fight. Meeting such enemies is best avoided. If he was confident in his shooting ability, he could use a sniper to hide behind the window to destroy the enemy.

It is not always a good idea to attack an enemy, or immediately perform a task without noticing the dangers around. In cases where you are already in a weak position, you must first run immediately to protect yourself, against the enemy's attack. Then search for a safe hiding place to calculate the next direction.
