

Snap.do removal guide on Chrome, Firefox and Internet Explorer

Snap.do is a PUP - unwanted program. It will slow down your browser, plus when you click on an ad it can navigate you to malicious websites. So the best way is to remove Snap.

Snap.do is a PUP - unwanted program. It will slow down your browser, plus when you click on an ad it can navigate you to malicious websites. So the best way is to remove Snap.

1. What is Snap.do?

Snap.do is a browser extension that comes with 3rd party software and is installed without your permission. After installation, Snap.do will change the homepage on the browser and set up searches, gather information, redirect you to unsafe web pages and display pop-up ads that make you feel bad. bear.

Snap.do is a PUP - unwanted program. It will slow down your browser, plus when you click on an ad it can navigate you to malicious websites. So the best way is to remove Snap.

2. Uninstall Snap.do automatically

1. Download Avast Browser Cleanup to your computer and install.

Download Avast Browser Cleanup to your computer and install it here.

2. Install the application.

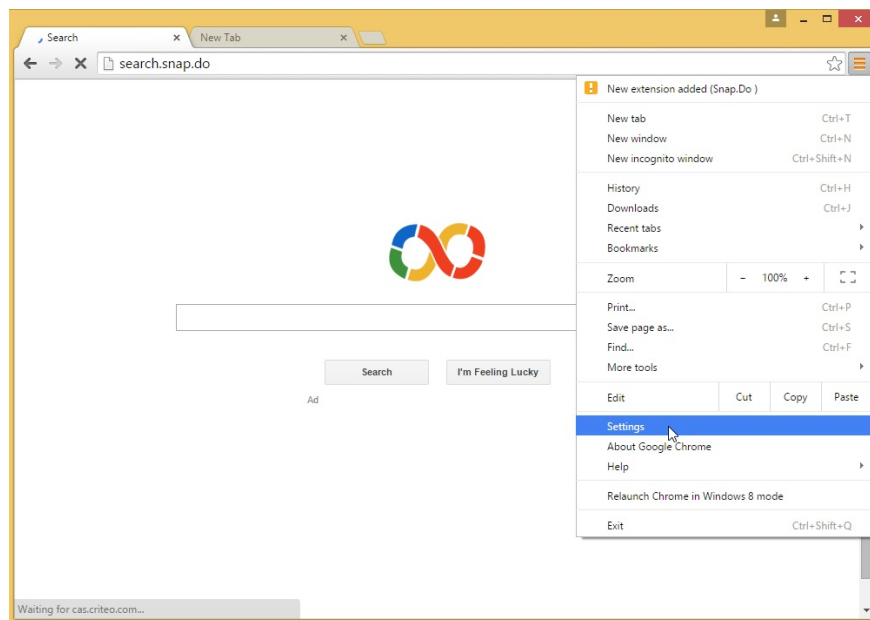

3. Finally, clean up your browser with just one click.

3. Uninstall Snap.do manually

Chrome browser:

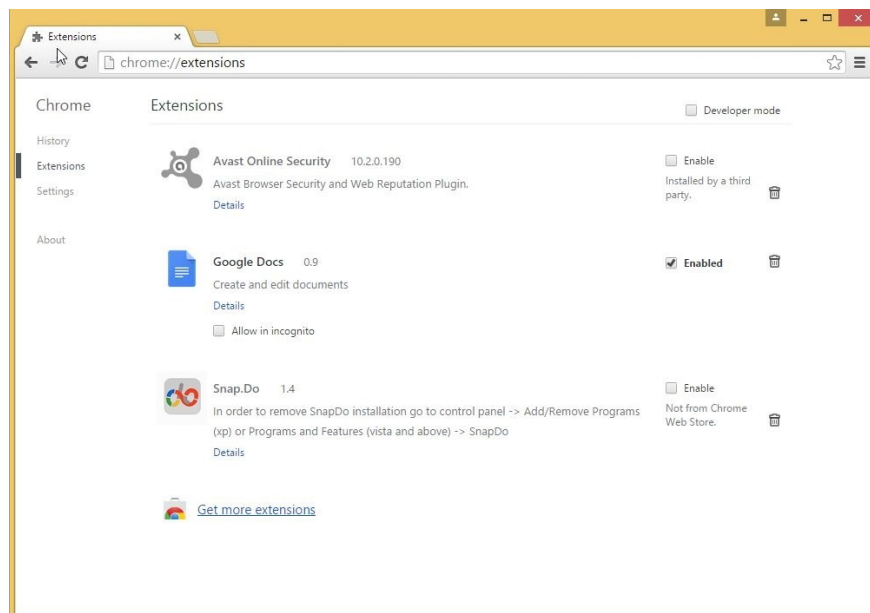

1. Open your Chrome browser.

2. Click on the 3 dash line icon in the top right corner of the screen and select **Settings** .

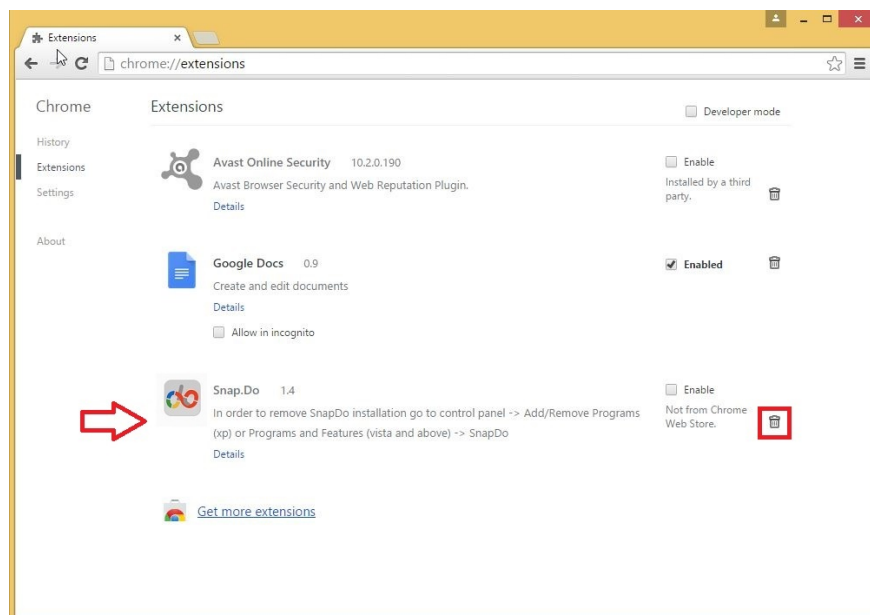

3. Select **Extensions** .

Alternatively, you can enter **chrome: // extensions** directly in the browser address bar.

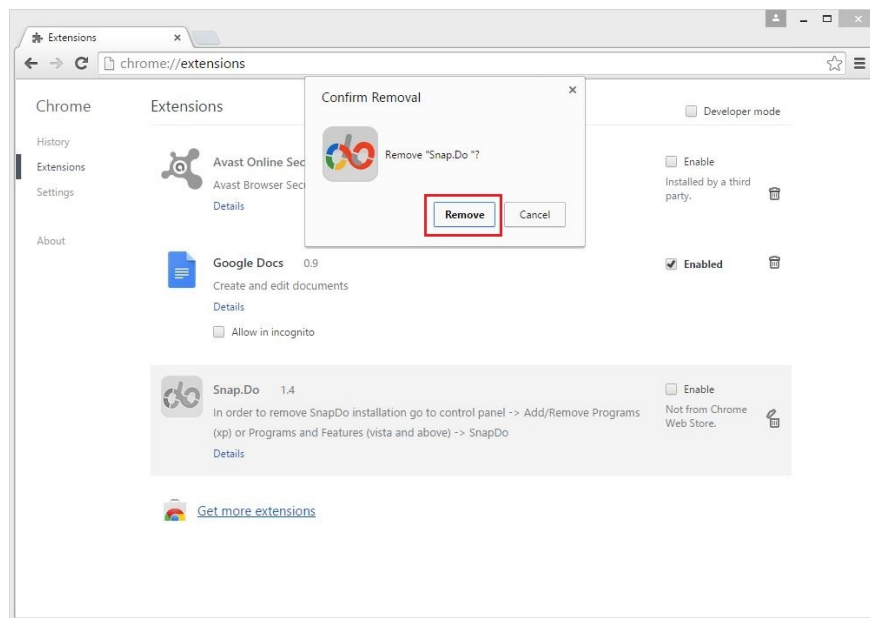

4. Next, look for Snap.do add-on on the list of extensions.

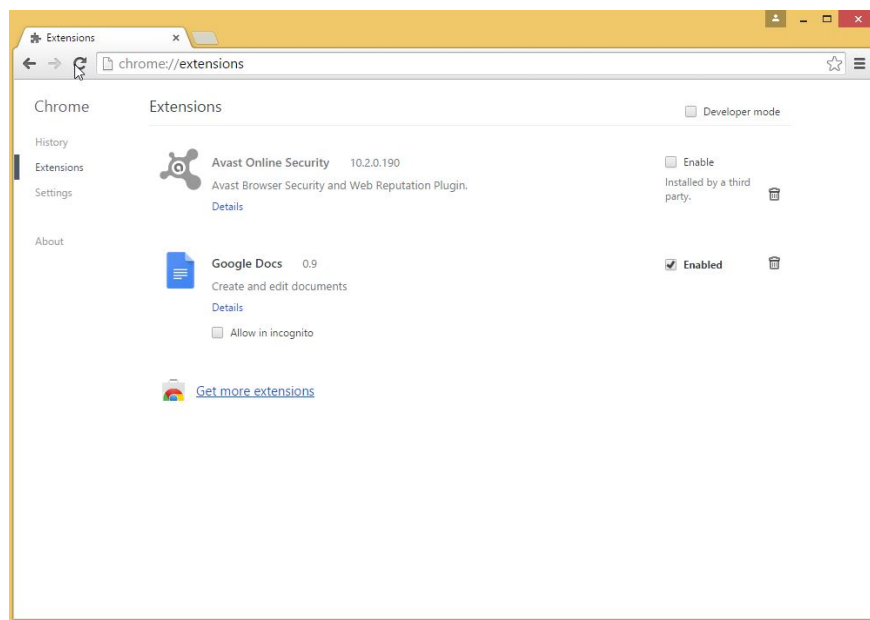

5. Remove Snap.do by clicking on the trash can icon on the right.

6. Confirm uninstall Snap.do on the confirmation dialog by clicking **Remove**.

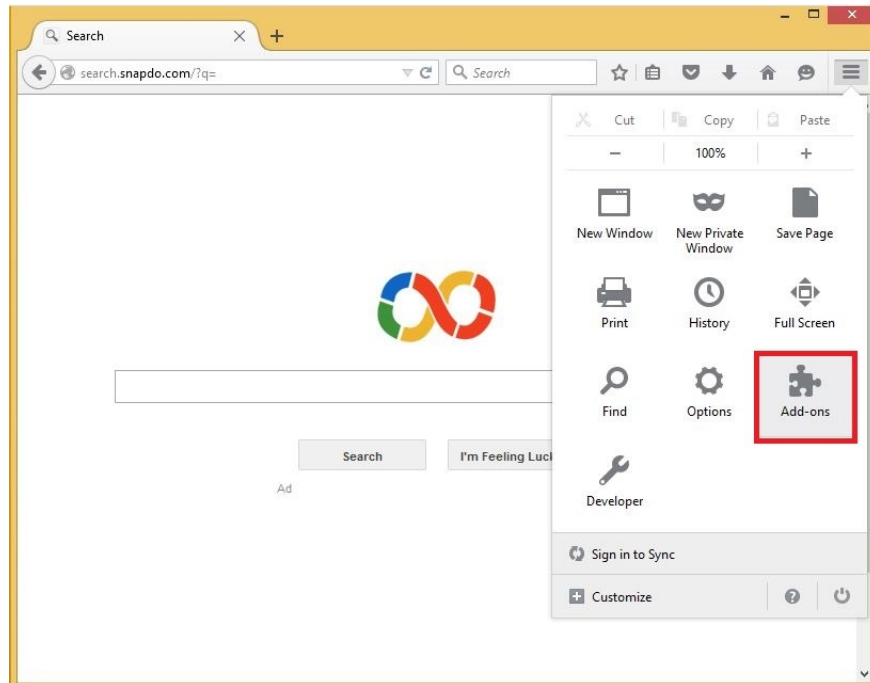

7. So you deleted Snap.do. Now on the list of extensions there will be no add-on Snap.do anymore.

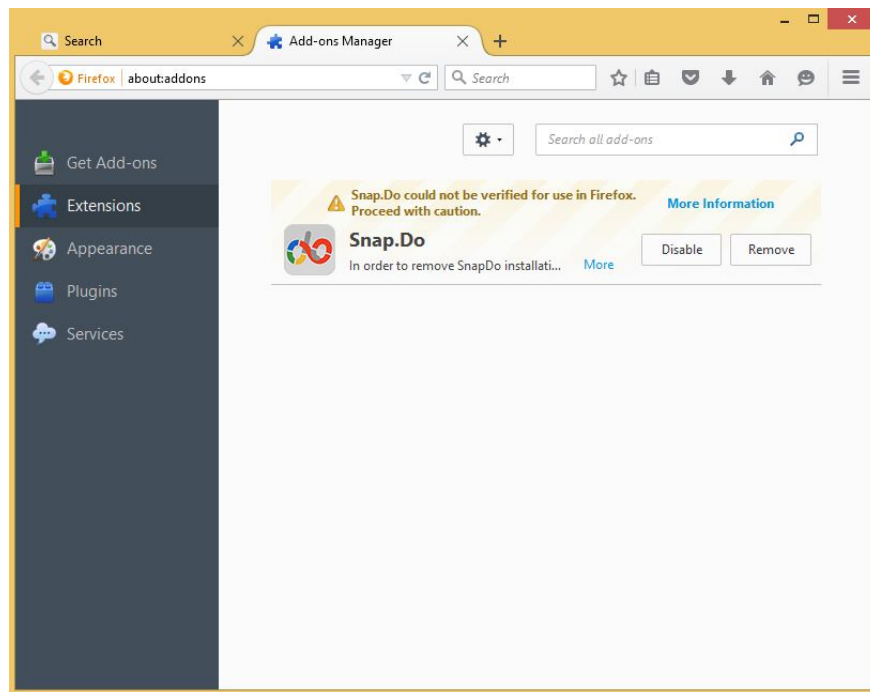

On Firefox browser:

1. Open Firefox browser on your computer.
2. Click the 3 dash line icon in the top right corner and select **Add-ons**.

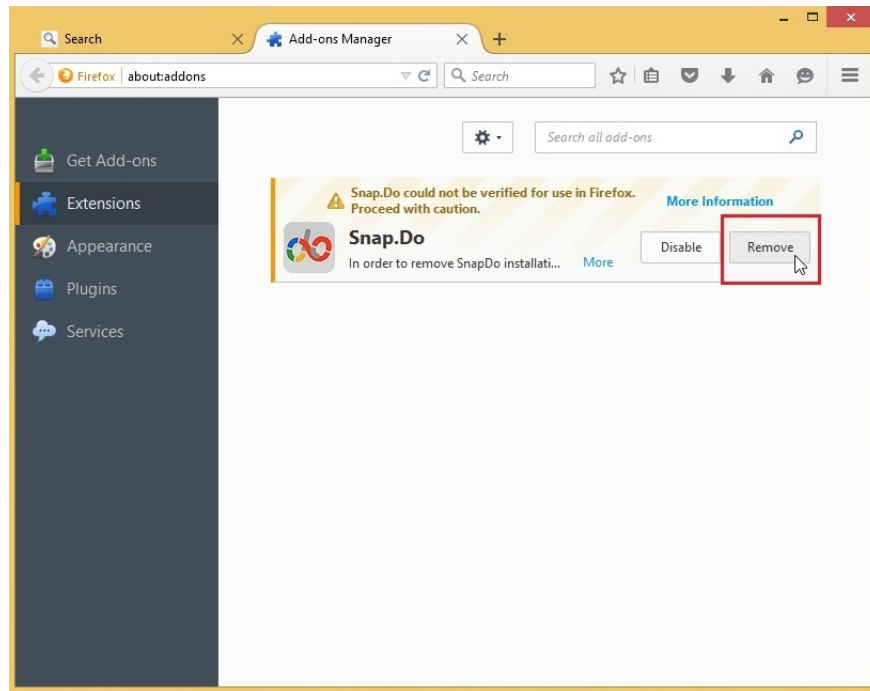

3. Select **Extensions** .

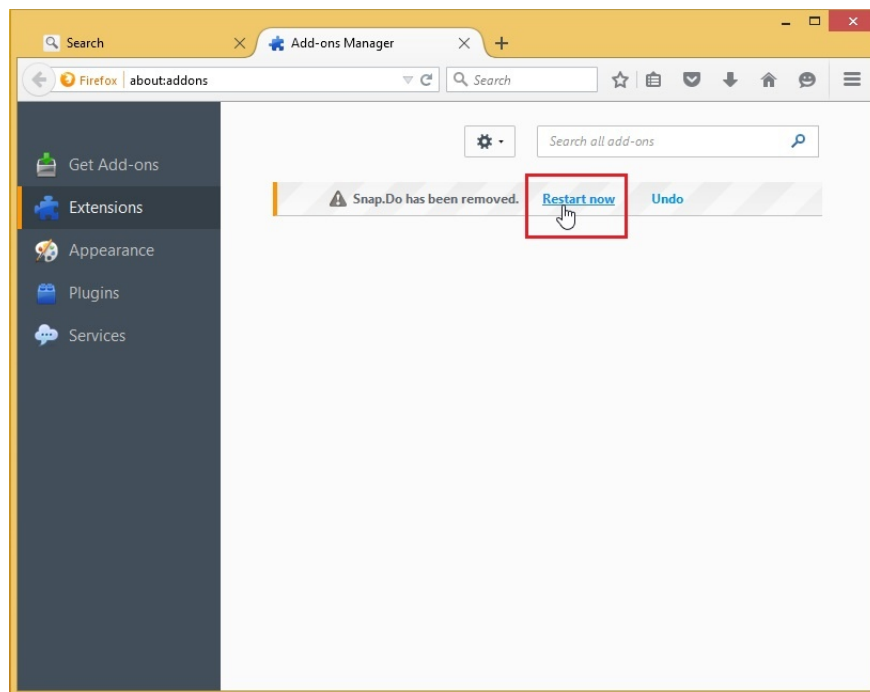

Or alternatively, you can enter **about: addons** in the address bar to open add-ons directly.

4. Next, look for Snap.do add-on on the list of extensions.

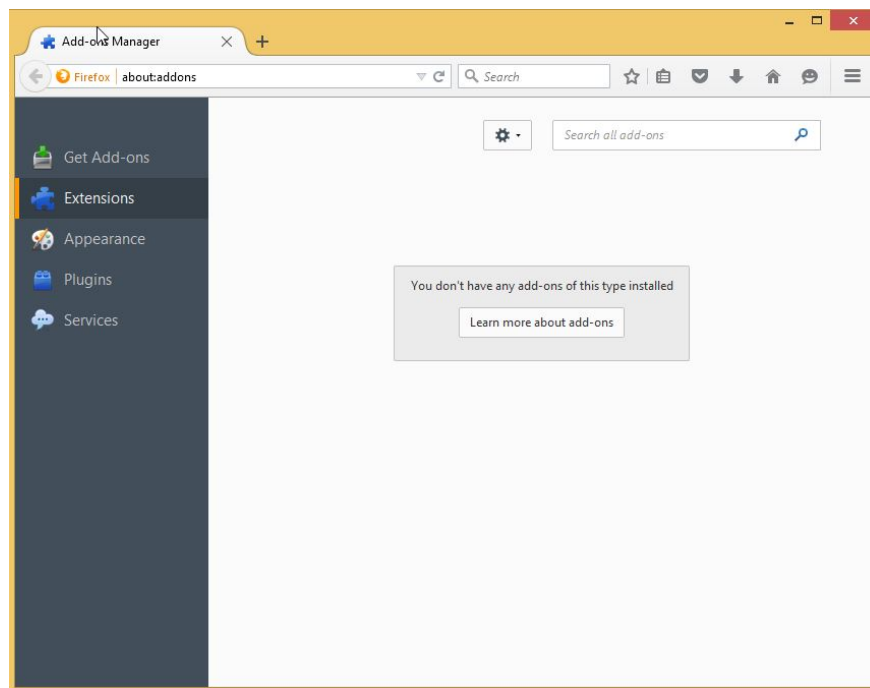

5. Delete Snap.do by clicking **Remove** on the right.

6. Confirm the deletion of Snap.o by clicking **Restart now** .

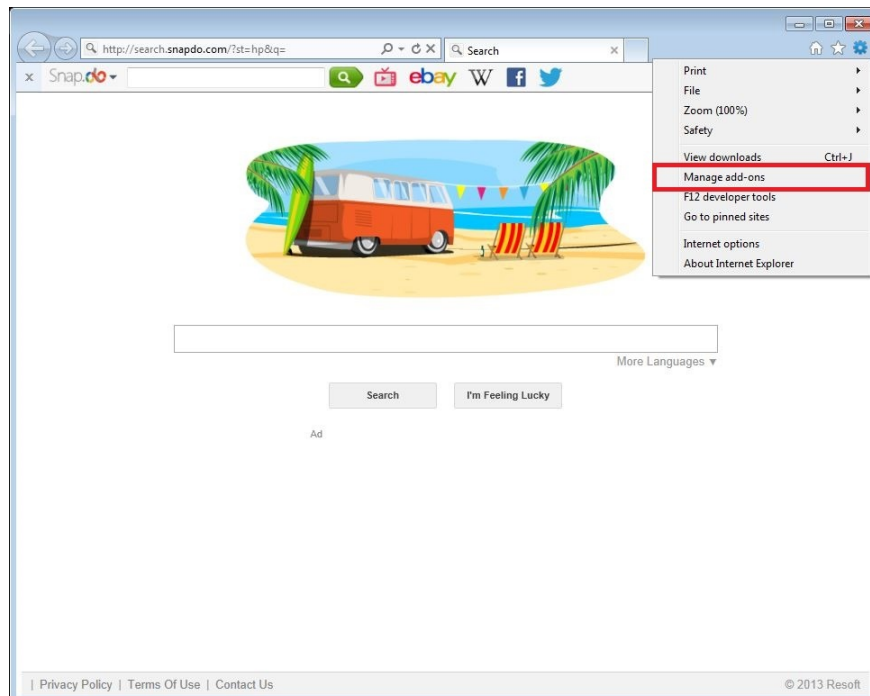

7. After your Firefox browser has finished booting, you can now see Snap.do no longer appears on the extension list.

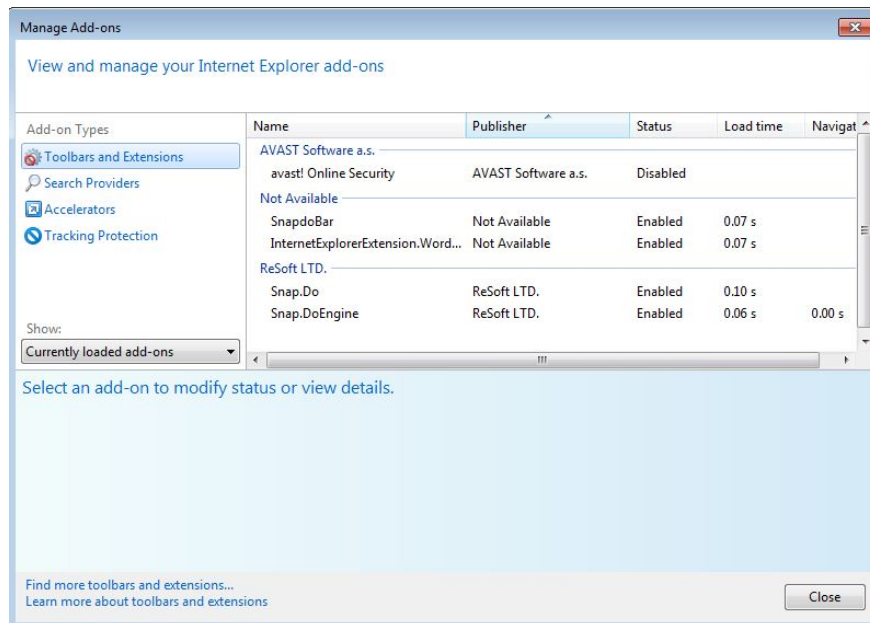

On Internet Explorer:

Note: On Internet Explorer you can only disable the installed add-ons, but not completely remove the add-ons. If you want to completely remove add-ons you can use tools like Avast Browser Cleanup.

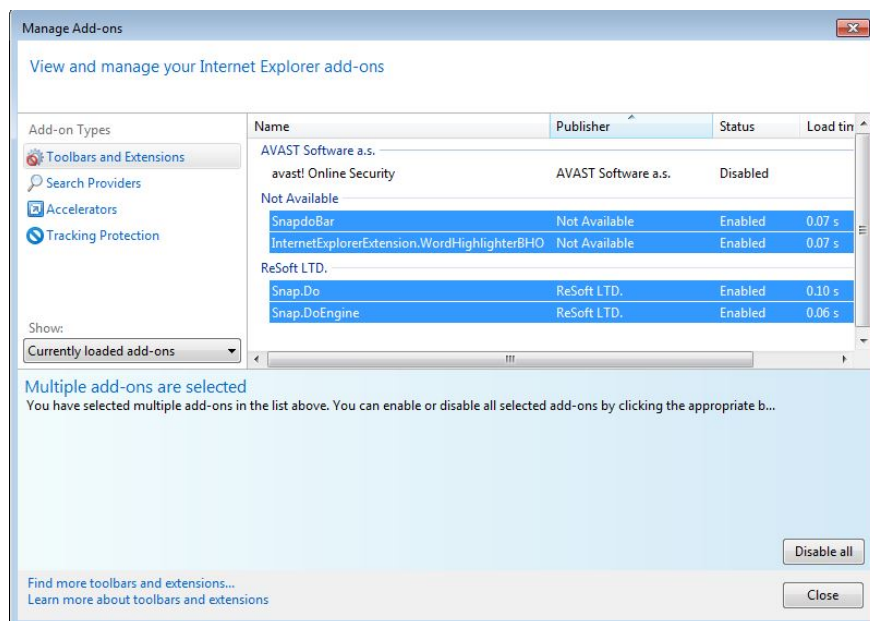

1. Open Internet Explorer on your computer.
2. Click the serrated icon in the top right corner and then select **Manage add-ons**.

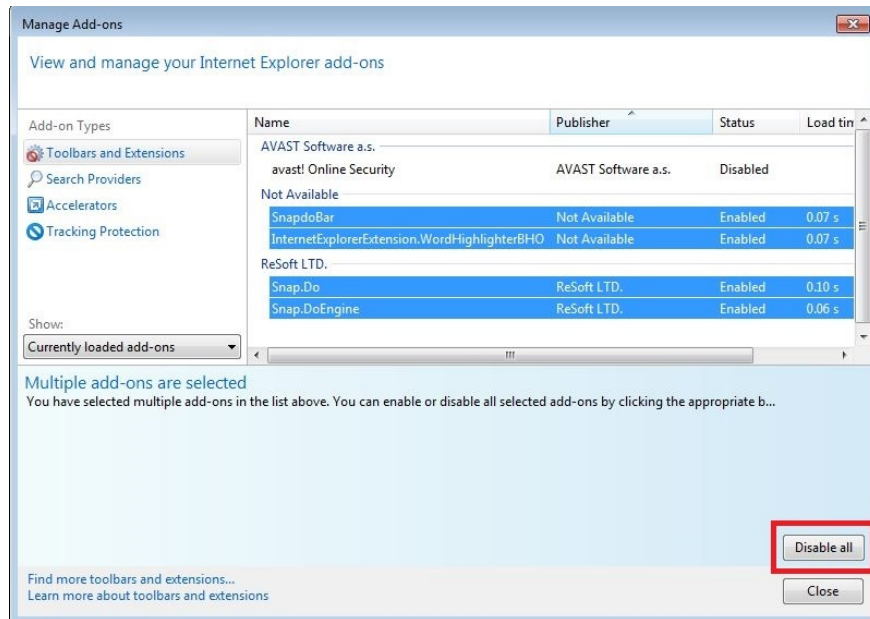

3. In the Toolbars & Extensions section, find the **Snap.Do**, **Snap.DoEngine** or **SnapdoBar** extension .
InternetExplorerExtension.WordHighlighterBHO extension is also a related utility.

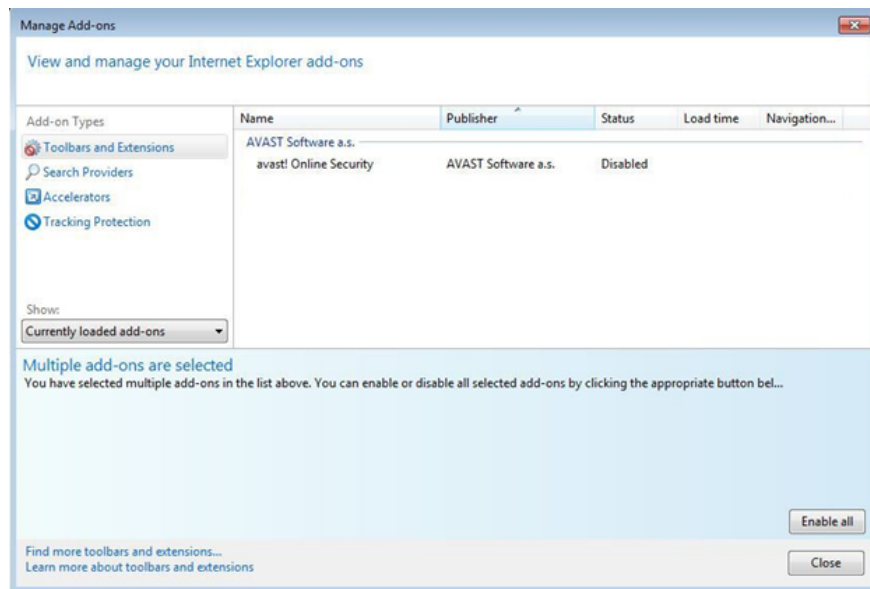

4. Select these add-ons on the extension list.

5. To disable these add-ons, click **Disable** in the lower right corner.

6. Now Snap.do no longer appears on the list of Internet Explorer extensions.
