

Software to remove logos, words on videos and usage

Videos that use free editing software often have their logo stamped on the video and we feel quite uncomfortable when those logos appear in our videos. Instead of paying for a license, we have a way to use the software to remove the logo and text on the video to make your video look cleaner and more complete.

Videos that use free editing software often have their logo stamped on the video and we feel quite uncomfortable when those logos appear in our videos. Instead of paying for a license, we have a way to use the software to remove the logo and text on the video to make your video look cleaner and more complete.
