Some features and tips for playing Legacy Of Discord for newbies

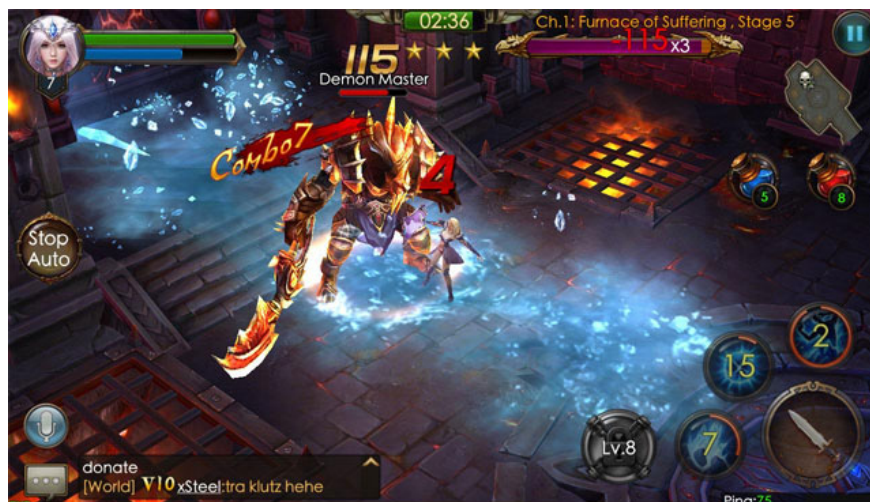

Legacy of Discord's comfortable open world play

As an open world game - Overworld, you will be able to "throw horizontal and vertical" before going out and looking for monsters. Here you will have a lot of shops selling and upgrading equipment, items and gifts every day.

So you can carefully equip the necessary items before going to quest or farming monsters.

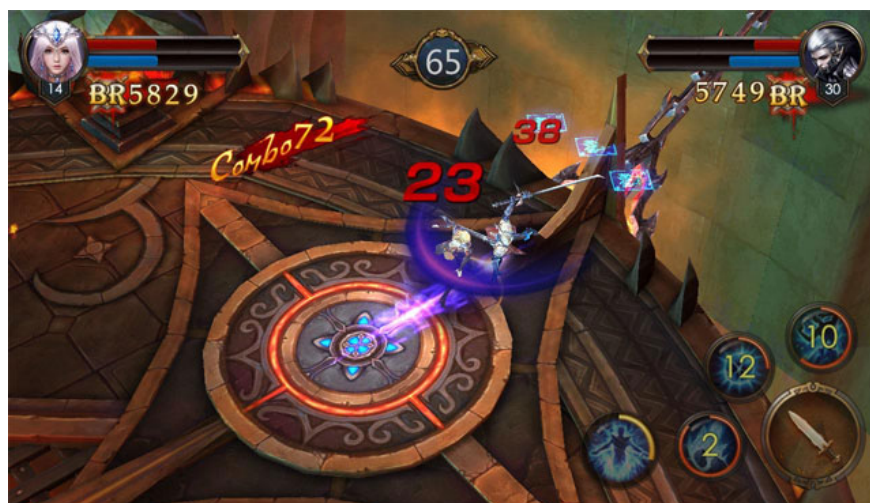

Upgrade equipment and skills

The system of beating furniture in LOD is quite basic, you only need gold to upgrade skills and equip with about 1500 gold and will be gradually increased by level. For armor-equipped equipment, the same upgrade value applies, you should also pay attention to armor before entering the mission.

For any task that you find difficult, keep in mind whether the skills and equipment have been upgraded to the maximum to reduce the burden on the character.

How to fight, tactics or sweep

At each different mission, you will have to pass from 1 to 10 maps per area. Depending on the mission, you will have to kill all kinds of monsters, kill all bosses and be more difficult to survive many attacks of different monsters. Depending on the character you choose, the quests will become extremely simple - or so hard that it is hard to overcome.

With Maestro, you are free to sweep multiple waves quickly because of high damage, then proceed straight to the boss without much trouble. The Sword Master with balance can attack straight to the destination or combine a variety of skills to attack and move.

In the end is the Sorceress with the ability to deal very high damage but can only use it as the main skill, each class will have a unique characteristic and depending on the gameplay you feel easy with yourself Most to change characters, avoid having to play each character in many different situations.

PvP and PvE

Don't hesitate, experience all the Legacy Of Discord PvP features if you're new. Many small gifts of PvP features like Icefire Field and battle guilds will help you get more and more items and money to upgrade your character's equipment.

In addition, the PvE features like Dungeon Farm Gold are also essential for newbie when new to the game, these things will help you have an advantage when going to that quest or farm monster.

Some tips to know

You will have a chance to get lots of gold and diamonds not only from the main quest but also from "extracurricular" activities such as Logic Bonus, Mystic Chest and Free Chest.

The chest of each area when clear all 1 to 3 stars is worth it. If you go to a high level and you haven't done it yet, go back to the low level map to make it all 3 stars.

Your main task in Legacy Of Discord is still to upgrade the characters, if you want a character suitable in all situations, please choose Sword Master. This is a character strong enough to play in all situations and focus on farming effectively.

With the tips for players in Legacy Of Discord here hope to contribute a little more experience for new players to set foot in the game.
