

## Some tricks to locate Pokemon GO

If you're wondering how to locate Pokemon GO or how to find Pikachu, Scyther, Electabuzz and some other rare Pokemon. Please refer to the following article of Network Administrator.

If you're wondering how to locate Pokemon GO or how to find Pikachu, Scyther, Electabuzz and some other rare Pokemon. Please refer to the following article of Network Administrator.

Currently there are at least 4 Pokemon GO maps: first Pokecrew.com, the origin of your location starts to show Pokemon nearby. And luckily, if you live in the Boston area, a Google Map called Gotta Catch 'Em All will display a list of all the locations players find and a list of rare and extreme Pokemon. rare.

A separate Google Map map pinned Pokemon positions in Seattle and Tennessee. Pokemapper also provides users with an overview of Pokemon locations but not as 'sophisticated' as other websites.

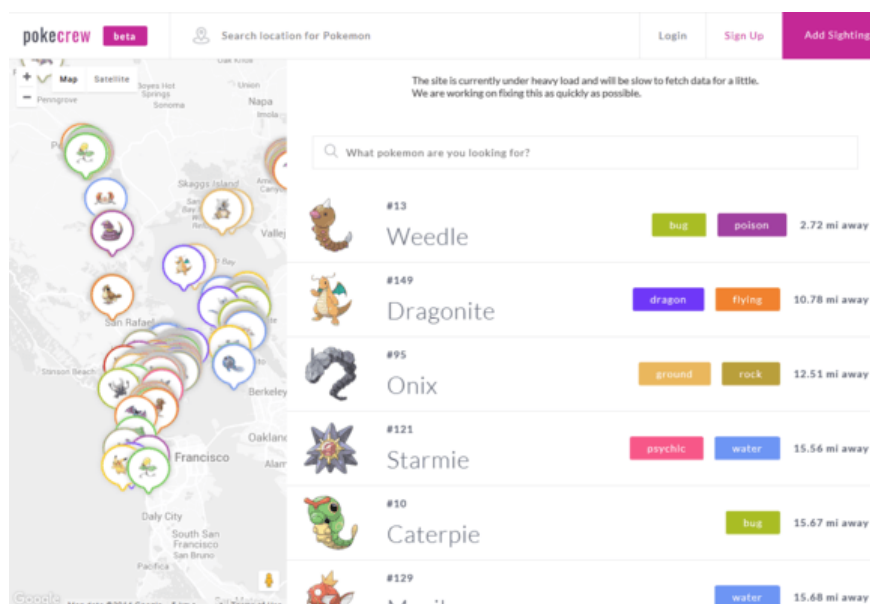

The player's task is to go out to the 'real world' and find new Pokemon. Pokemon can 'park' in many different positions, such as at stores, and some other locations. Each user can 'catch' a Pokemon using Pokeball, then train Pokemon at the 'gym' room.

With beginner players can use some elements such as aroma (incense) and prey to "attract" Pokemon.

So which map should you use? The advice for you is to use a drop-down version that allows you to enter a specific Pokemon name, then display the location of that Pokemon as well as quick instructions on how to reach them.

If you live in the Boston area, your advice is to use the Gotta Catch 'Em All map, both easy to understand and detailed.

The second map you can use is Pokecrew.com. The map will quickly display the types of Pokemon closest to you and allow you to scan a map near your location and discover everything in it.

On Android devices also have 2 applications to locate Pokemon: Map for Pokemon Go - Pokemon and Pokemap maps - find your Pokemon GO.

Also on iOS devices also have applications to determine the location of Pokemon GO. The Pokemon Go Maps application (\$ 1) allows players to enter locations, and has a chat tab to share tips, playing experiences and tips for other players.

Gabbermap is a free community site that allows users to search for anything, just add @pokebot to search for rare Pokemon.
