

Sony Fontopia MDR-E9LP Review: Headphones cheap but not cheap

Despite being a cheap headset, Sony MDR-E9LP surprised users with sound quality, thanks to the use of Neodymium diaphragm, the outstanding audio range of 18-22,000Hz, Sony MDR-E9LP good performance. High and low sound in a good quality song.

In order to provide consumers with an option in the segment of low-cost headphones, Sony has launched the MDR-E9LP of the Fontopia fashion line for less than 200,000 VND. So does this cheap headset guarantee sound quality and is worth the money?

Sony Fontopia MDR-E9LP headset

Sony MDR-E9LP headphones have a young, modern design with 10 different colors to help users have more choices. Now you can delight in choosing your favorite color and combining it with your outfit to create your own style. The earbuds are also equipped with a soft pad for users to listen to music for hours without feeling pain.

You can take Sony MDR-E9LP anywhere.

Despite being a cheap headset, Sony MDR-E9LP surprised users with sound quality, thanks to the use of Neodymium diaphragm, the outstanding audio range of 18-22,000Hz, Sony MDR-E9LP good performance. High and low sound in a good quality song. In addition, the harmonious combination of the diameter of the

loudspeaker with the vents increases the vibrancy of the air flow, giving the listener a deeper and deeper sound.

Sony MDR-E9LP is cheap but the sound quality is not cheap.

Sony MDR-E9LP music headsets use the popular 3.5mm connection standard, so we can connect to sources to enjoy music anytime, anywhere.

Moderate long cord, soft and durable material.

Overall review of the Sony Fontopia MDR-E9LP headset

Advantages:

1. Long cables are suitable for exercising or high mobility.

2. The sound is vivid, clear and clear.
3. Famous brand.
4. Many fresh colors match the youthful style.
5. If the price is moderate, it is too cheap.
6. Wearing long time without ear pain.

Defect:

1. There are no buttons to adjust the volume.
2. No Micro.
3. The supplied cushion is quite fragile.

Sony MDR-E9LP is well worth owning for people who are not too important in sound quality and want to use all their headsets for everyday needs. In conclusion, Sony MDR-E9LP is the headset to give you a better sound experience in the low-end segment.
