

Sony MDR-EX15AP review: Small headphones, sound quality, everyone can wear them

Stylish design, sound quality, reasonable price, all these features are converged in a headset that is Sony MDR-EX15AP. Appeared on the market for a long time but this is still the preferred earbuds of Sony.

Stylish design, sound quality, reasonable price, all these features are converged in a headset that is Sony MDR-EX15AP. Appeared on the market for a long time but this is still the preferred earbuds of Sony.

Evaluate the design and sound insulation of Sony MDR-EX15AP

When holding the Sony MDR-EX15AP on hand, the first feeling is that the headset box is very compact. It is worth noting that the Sony MDR-EX15AP has a lot of colors for users to choose, from youthful colors to elegant, to meet the needs and preferences of each person. The Sony MDR-EX15AP Y-shaped headset cord design is a commendable point. This has solved the problem of many users when holding a messy headset without knowing where to remove it.

Sony MDR-EX15AP has a compact ear design that makes it easy to enjoy music anytime.

In terms of sound insulation, the Sony MDR-EX15AP has a soft and smooth silicone ear cushions that not only provide a comfortable feeling for long periods of time, but also increase sound insulation better than other types of ears. normal listening As a result, you can both run and wear while not afraid of the surrounding noise harassing your music party.

The Sony MDR-EX15AP also comes with a convenient microphone.

Evaluate the sound quality of Sony MDR-EX15AP

It is a famous earbuds company, besides focusing on the design of Sony, it is especially interested in sound quality. The Sony MDR-EX15AP headset with ear tubers made of premium 400-jJ / m3 nickel magnet helps to reproduce high tones and mid tones, powerful bass. At the same time, the sound range of 8-22000Hz, along with 100dB / mW sensitivity will give you the most realistic and vivid sound.

Enjoy music in your own way with the Sony MDR-EX15AP.

Overall evaluation of pros and cons of Sony MDR-EX15AP

Advantages:

1. Nice design in price range.
2. Efficient soundproof ear cushions.
3. Wear comfortably despite listening to music for a long time.
4. Integrated handy microphone.
5. 9mm speaker diaphragm gives vivid sound.

6. The ability to express bass and treble is strong, clear, for a great sound experience.
7. Long cables are suitable for exercising or high mobility.

Defect:

1. The white version is easy to get dirty.

Conclude:

The Sony MDR-EX15AP headset is worth buying in less than 650,000 VND. With a simple design, comfortable wearing and enough 'beautiful' sound quality to meet the needs of popular music. You can choose the Sony MDR-EX15AP for yourself or give your friends, relatives or half a reasonable price.
