

# Sony MDR-XB610 headset review: Nice design, good sound, reasonable price

Sony MDR-XB610 headphones appeared on the market for a long time but so far still receive the attention of music lovers thanks to the eye-catching design, moderate price, and strong bass suitable for the department. likes of the majority of users.

MDR-XB610 is Sony's headset model, appeared on the market for a long time but so far has received the attention of music lovers thanks to its eye-catching design, moderate price, and strong bass suitable for the preference of the majority of users.

## MDR-XB610 and experience when used

The MDR-XB is a line of headphones that delivers superb bass and of course MDR-XB610 is no exception, even appreciated. If you are a person who likes to listen to music with the type of Hip hop or Electronic, then the bass element must be considered first, so MDR-XB610 will definitely satisfy you. With 40mm speaker diaphragm design and wide frequency range (4Hz-24kHz), MDR-XB610 shows us strong and strong bass, creating extremely deep bass, ensuring music fans unleash 'adventure'.

Say your every tone with MDR-XB610.

Besides the plus point of sound quality, MDR-XB610 also received the sympathy from the users thanks to its impressive design with two main colors: light and white orange brick, very eye-catching. These two colors are both youthful and dynamic.

MDR-XB610 shows your personality.

In terms of design, the MDR-XB610 is a ear-worn headset with a completely new noise isolation pad, using soundproof ear pads with Uretan material to provide a fit, when worn for a smooth feel. ears and sound insulation very well. In particular, the closed sound design for the ears contributes to strengthening the strong bass. In general, just experience a short time, you can feel all these characteristics of MDR-XB610.

Enjoy your music with MDR-XB610.

One of the "money-making" designs of MDR-XB610 is a multidimensional, flexible folding design that can accompany you all day long. At the same time, the 1.2m long cable has many small grooves, which effectively

reduces the tangle phenomenon. At this point, the MDR-XB610 headpiece headset has "eaten off" some other headphones.

You can bring MDR-XB610 anywhere with you.

## **Overall evaluation of Sony MDR-XB610 headphones**

### **Advantages:**

1. Beautiful design, eye-catching.
2. Soft ear cushions wear comfortably.
3. Strong sound quality, strong bass.
4. Convenient multi-function folding design.
5. No tangled wire design.
6. 360-degree rotation.
7. The price is stable compared to the quality.

### **Defect:**

1. Not found the point worth discussing.

### **Conclude:**

In general, with a price of about VND 2,100,000, the MDR-XB610 is a very good headset. At this price range that is beautifully designed, the sound quality is strong but still quite harmonious is too great. Of course, MDR-XB610 also cannot satisfy all music followers, because each person will have their own way of perceiving sound and rating. Hopefully by analyzing the strengths and weaknesses, you will be able to decide whether or not you should buy MDR-XB610 headphones.
