Like HP or some other brands, the CW series is Sony's latest laptop to be upgraded with Core i5 and i3 processors.

The new generation Vaio CW will continue to own a 14-inch wide LED backlight screen with a resolution of 1,366 x 768 pixels. It has an option of 2.40GHz Intel Core i3-330M 2.13GHz or Core i5-520M processor, NVIDIA GeForce 310M 256MB or GT 330M video card. In addition, these models are also equipped with 4GB of DDR3 memory, a hard drive of up to 500 GB and an optical read / write DVD or Blu-ray drive.

All new CW products will come preinstalled with Windows 7 Home Premium operating system with color options: black, white, red, blue and pink.

CW21FX / B with Core i3 chip, NVIDIA GeForce 310M graphics card will sell for about \$ 829 or \$ 1,120 for CW27FX / B model with core i5 chip, 512MB GT 330M graphics card and Blu-ray drive.
