The Vaio Z series continues to be Sony's highest-end product line with a 13.1-inch high-definition LED backlit LED display. The configuration of these models is also very "big" with the option of Intel Core i7-620M processor with 2.66GHz speed, 2.53 GHz Core i5-540M and Core i5-520M speed of 2.4 GHz, RAM memory up to 8GB, 500GB hard drive or SSD cassette hard drive up to 512GB and Blu-ray optical drive attached.

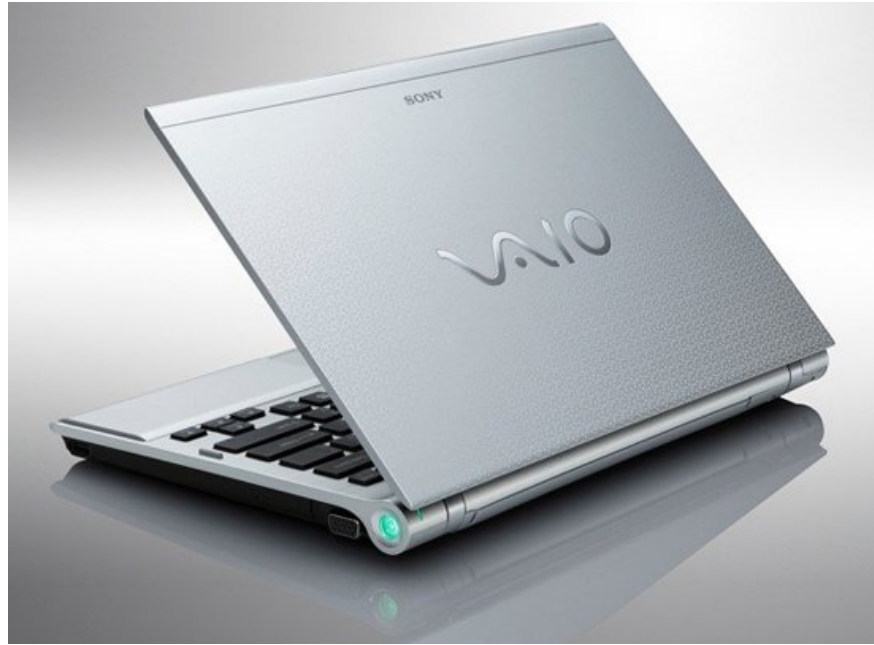

Meanwhile, the new Vaio Y line also appears in many colors, which are purple, pink, blue, blue and black. Models of this series also have 13.3-inch LED backlight screens and optional Intel Core i3 or Core i5 processors.

There is no official price and time to sell the above models.
