

Sony XB650BT review: Stylish, booming headset with powerful bass

Catching the trend of listening to music of young people today is a vibrant music, 'reeling' in the space of bass. Sony has launched a range of Extra Bass products, notably the 'luxurious' XB650BT Bluetooth headset.

Catching the trend of listening to music of young people today is a vibrant music, 'reeling' in the space of bass. Sony has launched a range of Extra Bass products, notably the 'luxurious' XB650BT Bluetooth headset. This is also the wireless headset that reached the top of many young people "hunted" in the past, now we will evaluate this new generation earphones.

A few comments about the design of Sony XB650BT

Featuring three colors of black, red and blue, XB650BT brings youthfulness and dynamism to its owner. In particular, if you are a person who likes to show off your personality, express a passion for music that is exciting and booming, love the passionate EDM music, the Sony XB650BT red version will be a bad choice for you.

"Luxury" Sony XB650BT with 3 colors black, red and blue.

The Sony XB650BT has a much better design earbuds, but Sony XB650BT is much better than low-end products. The entire headset is a combination of plastic and metal, while creating a sense of comfort, comfortable to wear but still maintaining a light weight.

Sony XB650BT feels comfortable wearing.

Sony puts all of the basic interactive hard keys such as the power button, volume up and down, media control controls, call receiver and charging port on the left ear tub of the XB650BT. Therefore, users can easily locate the joystick, using features more easily.

The Sony XB650BT control buttons are designed on the speaker wall.

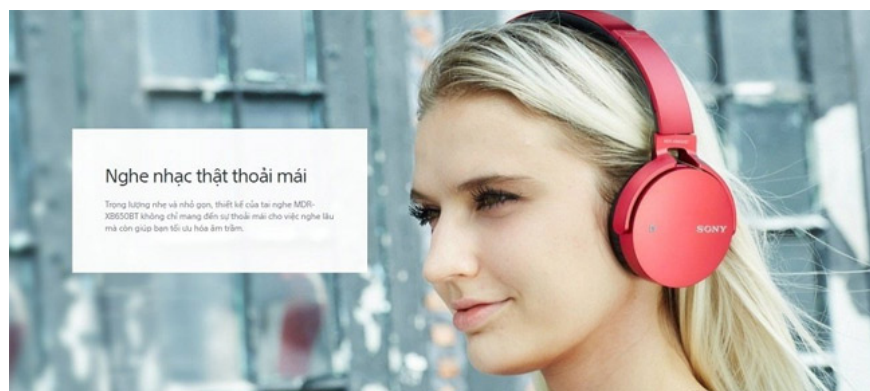

However, the unfortunate defect of the XB650BT headpiece is that it does not support the line-in 3.5mm port for use with devices without Bluetooth, or when the headset runs out of battery and you have not yet charged it. In fact, with the battery life for more than 30 hours of continuous music playback, users can fully understand this omission.

Sony XB650BT headphones allow music and entertainment up to 30 hours

Experience the real Sony XB650BT

Talking about the feeling of wearing, XB650BT is an On-ear ear so when worn, it will be pressed on the ear, not fully attached to the ear. However, the headset has a cushion that is made thick enough so it does not feel too heavy, after about 30 minutes of taking the ear off and taking a break, it is okay.

Listen to music with Sony XB650BT.

There is no headphone headset belonging to Sony's Extra Bass line, which makes the basshead (bass enthusiast) disappointed. And of course the XB650BT is the same, it gives impressive bass in quality and quality in both passive and active modes. The bass of the headphones is not just listening to the new dance songs that are felt, right from the slow, emotional XB650BT melody has also shown the power of this part.

Sony XB650BT bass is plentiful, never lacking in quantity.

Sony XB650BT pretty good bass control helps to limit bloated phenomenon, rampant innocence on the remaining ranges when performing electronic music with fast speed, tempo.

Enjoy every best tune with Sony XB650BT.

Besides the bass band, the mid and treble range of this Bluetooth headset is also significantly improved, being pushed up so that it is no longer too submerged compared to the bass. A praiseworthy word for the mid range is the pursuit of simplicity, detail and not much electronic direction as before.

Advantages and disadvantages of Sony XB650BT headphones

Advantages:

1. Luxury design.
2. Wear comfortable, no ear pain.
3. Quality perfect.
4. Bluetooth connectivity is stable, NFC is available.
5. Compact folding capability.

6. Great battery.
7. Powerful sound quality, strong bass.

Defect:

1. Not usable by wire.
2. The treble part is not really impressive.

Conclude:

Sony XB650BT may not be the best, but it's not really bad at all, at least compared to other bass headphones. Sold at a price of more than VND 2 million, if young people want to create a dynamic and outstanding style of dress and like EDM music, more bass, Sony MDR XB650BT Bluetooth headset is an option Top.
