Logitech? VX Nano Cordless Laser

This is probably the hottest product for laptops during this time and will last for a long time. The main reason why Logitech VX Nano is popular is the integration of all the most advanced and attractive technologies for laptop mice.

First, the laser sensor eye gives the ability to operate on all surfaces from stone to ground. Wireless technology with micro-receiver allows users to attach to the laptop very conveniently, you don't need to worry about removing the receiver or sticking out a broken side like ever. In addition, it is fully compatible with Vista Premium.

Reference price : 89 USD.

Logitech Alto

Laptops can replace the PC quite well, but for those who prefer to use a laptop or sit in one place, the tiny keyboard can make them irritable. Logitech's solution is to create a larger keyboard under the laptop to create a more comfortable feeling for users. Alto can open like a book. On one side is a very nice big keyboard, while the other is a price for your laptop.

You raise the rack to eye level, put the laptop on, then connect the new laptop and keyboard via USB cable. Now the laptop becomes a desktop computer. To make it more comfortable to use, you can freely adjust the viewing angle, change the function of the control hotkey, use 3 open USB ports. Logitech Alto is compatible with Windows Vista Premium and connected to the device via USB interface.

Reference price : 108 USD.

CoolerMaster Notepal Infinity

Today laptops are not just work tools, they also serve gaming (Dell XPS, Voodoo or Alienware .) or high-end graphics (MacBook). The common feature of these models is the strong configuration but shows a lot of heat.

So if you own a high-temperature laptop, Notepal Infinity is really an important product that you should keep an eye on.

Although it is not an expensive toy, it will make your laptop more stable, especially in the summer. With a large size fan blowing from the bottom up (3 speed adjustable steps) and 2 extra USB ports, Notepal Infinity can go hand in hand with you wherever you go, especially the southern region which is very hot.
