White shirt is a familiar and favorite outfit of many people. However, a disadvantage of white shirt makes many people feel afraid, do not dare to wear a white shirt that is easy to reveal stains and it is difficult to completely clean stains on it, especially sticky from real types products like chili sauce, ketchup, kimchi, colored food . At this time, do not rush to discourage and throw it in the cupboard, because there is an extremely simple way that can help you solve A thorough resolution of this problem is to use an onion.

## How to remove stains on white clothes with onions:

Perhaps it was due to hurried eating or the fact that you dropped a piece of kimchi on your shirt. This stain from this food is often difficult to bleach in the usual ways.

Now you stand too worried and take it to reap immediately with soap, because it's hard to clean. In this situation, you should use an onion, using a blender or minced onion.
