

Standard window size

Depending on the number of doors arranged in the room and daily needs of the family, the size of the window may vary.

Windows help bring light, airflow to the house. Depending on the number of doors arranged in the room and daily needs of the family, the size of the window may vary.

Usually, rooms with an area larger than 15m² will design windows with 3 or 4 wings. For rooms smaller than 15m², choose to install 2-wing windows. A single-wing window is usually arranged in dark areas such as the basement.

Below is the standard window size of type 1 door, 2 wings, 4 wings, window size according to feng shui, please refer.
