

Steps to record screen with VLC Media Player

In addition to the ability to play Video, VLC Media Player also has the ability to record the computer screen, although it is not a dedicated computer screen recording software, the quality of the movie after being recorded is still highly appreciated.

This article will show you how to record the screen with VLC Media Player software. Follow the steps below:

Step 1: First you need to [download VLC Media Player](#) software here and install them to use.

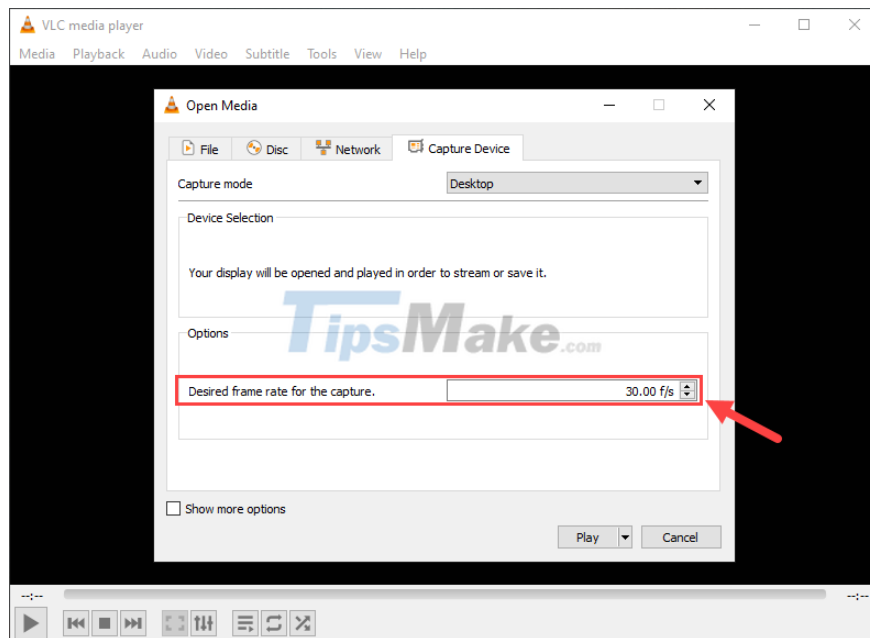

Step 2: At the main interface of VLC Media Player, proceed to select Media and select Open Capture Device... (Ctrl + C) to open screen recording settings.

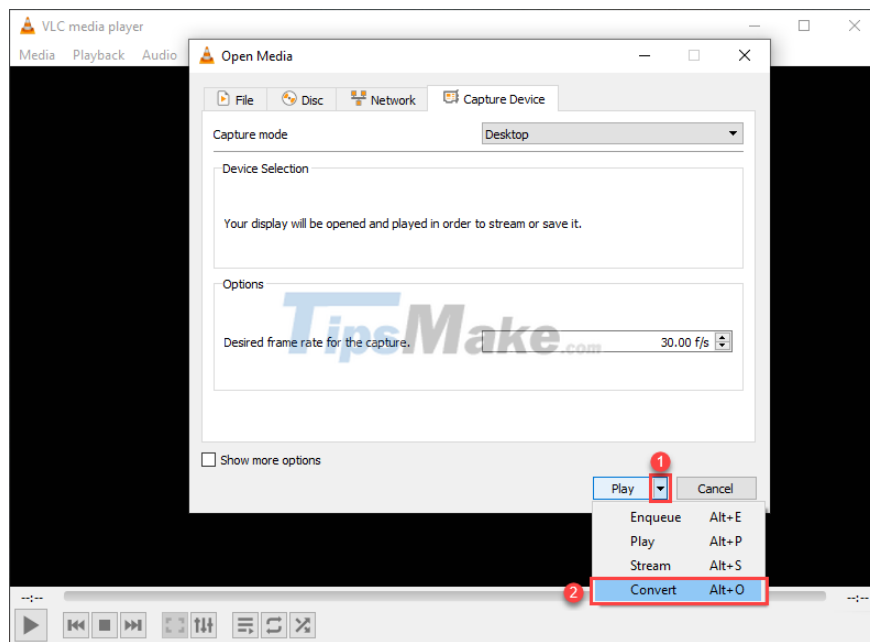

Step 3: When the Open Media window appears, proceed to set Capture Mode to Desktop to record the computer screen.

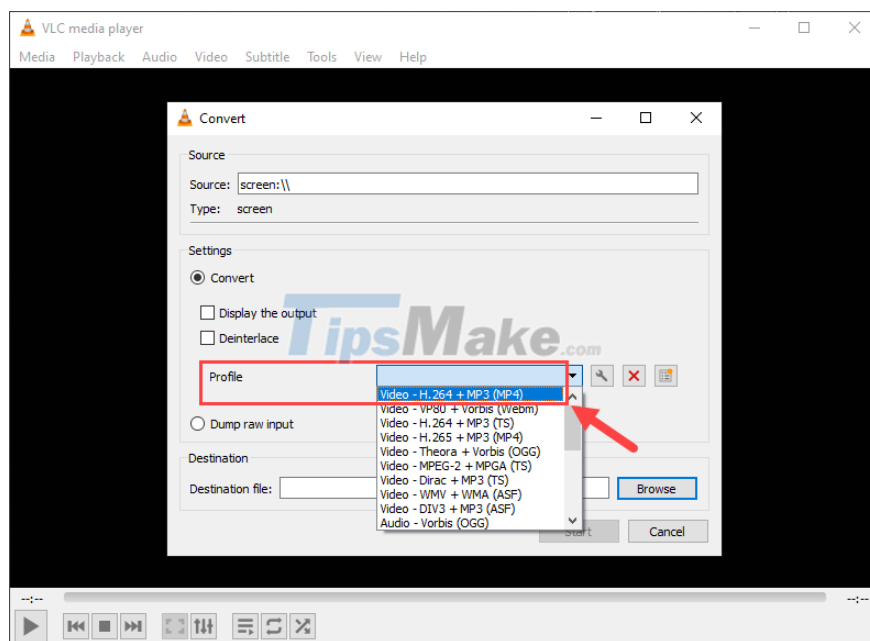

Step 4: When switching to Desktop mode, the Options section will appear to set FPS when recording the screen. To make the video quality beautiful and smooth, you should set the FPS level from 20f/s or more.

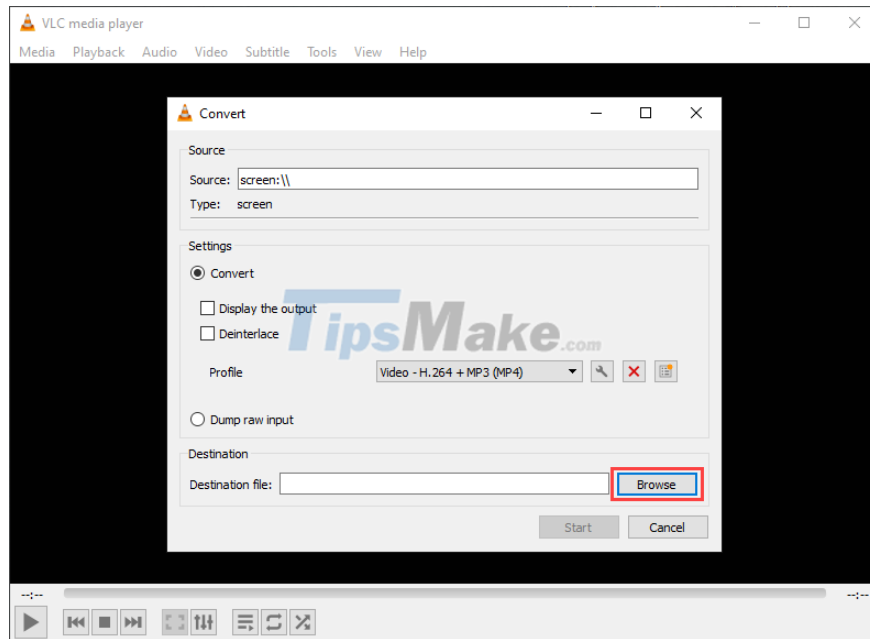

Step 5: After setting up the information for the screen recording feature, select the Arrow icon (1) and proceed to select Convert (Alt + O).

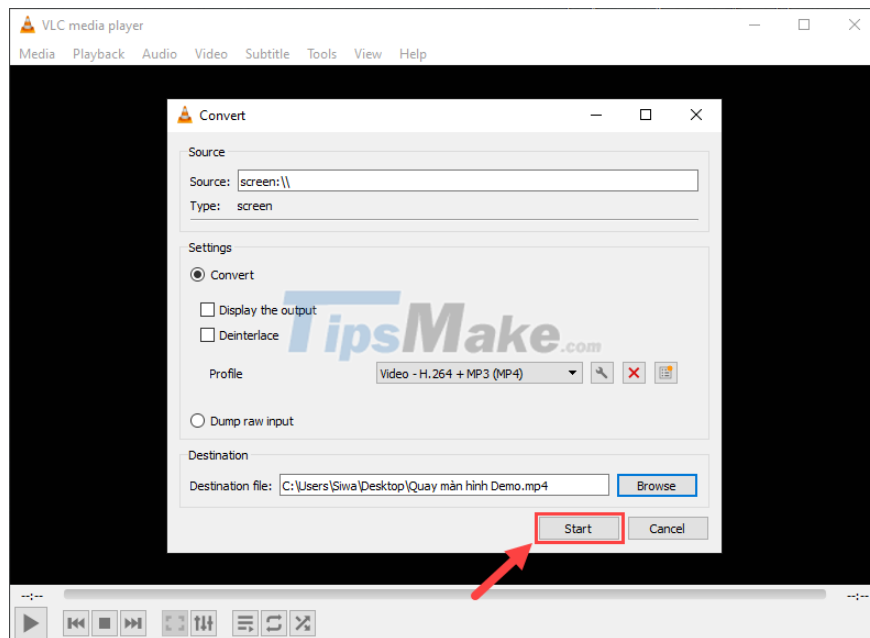

Step 6: Now we will have a Convert window, in this window you need to set up the Profile section (Video format when recording), normally we will choose H.264 + MP3 (MP4) format because this is a universal format that can be used by all platforms.

Step 7: After setting the format, select Browse to select the folder to store the Video after the screen recording is complete.

Step 8: So you have completed the settings related to computer screen recording, now click Start to start recording the screen.

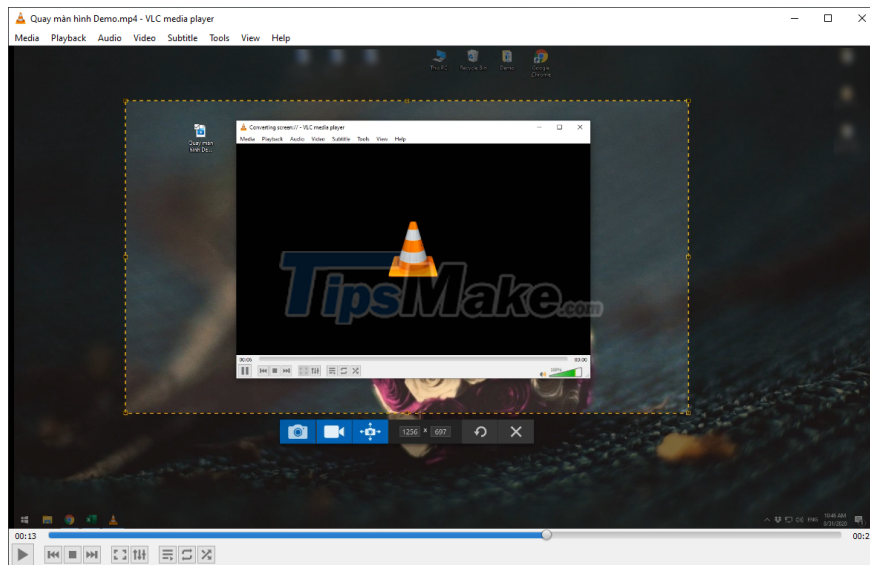

Step 9: Now VLC Media Player will switch to screen recording mode, at the interface of the software you will have 02 main features as follows:

1. Pause/ Resumed: Pause/ resume
2. Stop: End screen recording

After finishing the screen recording, you can reopen the saved file to see the product recorded by VLC Media Player.

In this article, Tipsmake has shown you how to record screen with VLC Media Player quickly and effectively. Have a nice day!
