

# Steps to resize application icons on Windows 11

Changing the icon size on Windows 11 will help you have a beautiful interface and fit your computer needs. Here are ways to resize application icons on Windows 11.

## 1. Resize Windows 11 Home Screen App Icons

On the Desktop of Windows 11, people often leave many applications with the purpose of opening quickly. The icons on the Desktop main screen can be completely changed according to the needs.

Please **right click** on an empty space on the screen and select **View => Large icons / Medium Icons / Small icons** .

## 2. Resize Icons in Folder

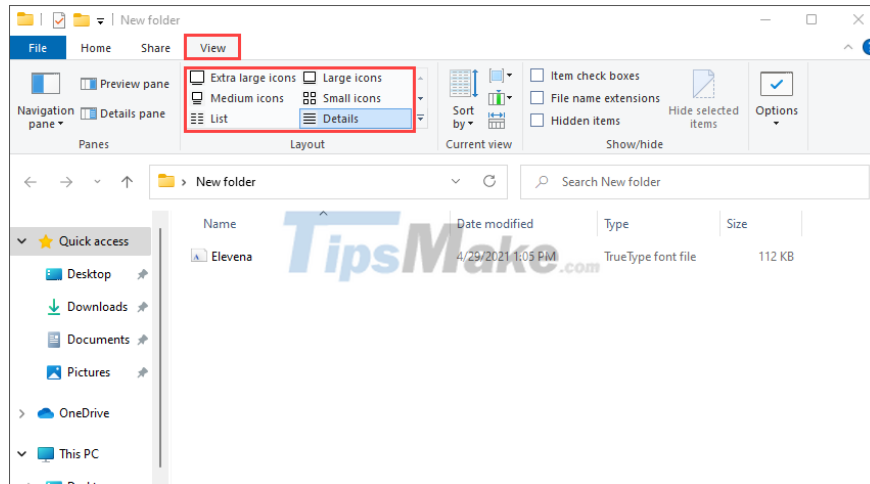

Other than resizing icons on the main screen, resizing on Folders will be a little different.

**Step 1:** Open the folder you need to change the icon size on your Windows 11 computer.

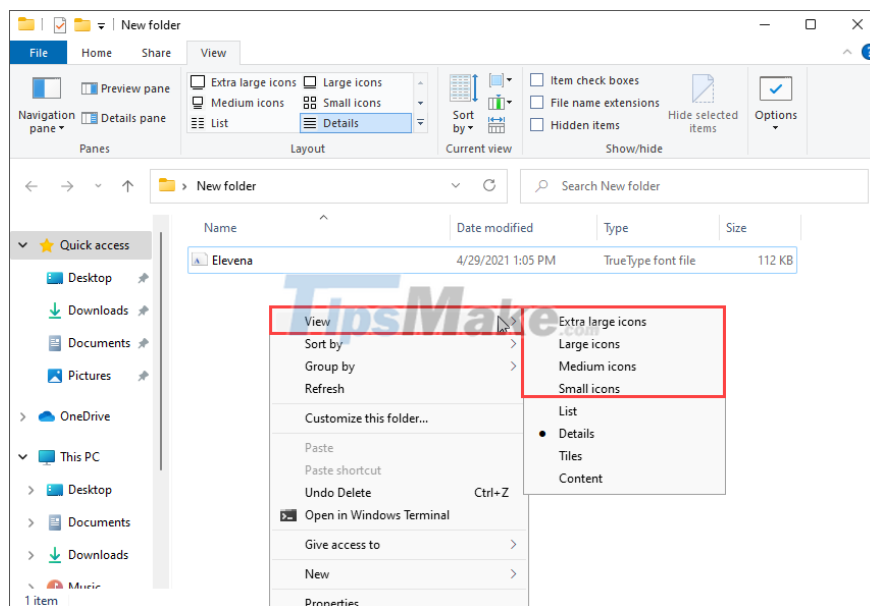

**Step 2:** Then, select the **View** tab and switch some application size display modes in the computer folder.

1. **Extra large icons:** Largest size
2. **Large icons:** Large size
3. **Medium icons:** Medium size
4. **Small icons:** Small size
5. **List:** Displays as a list

## 6. Details: Display list and information

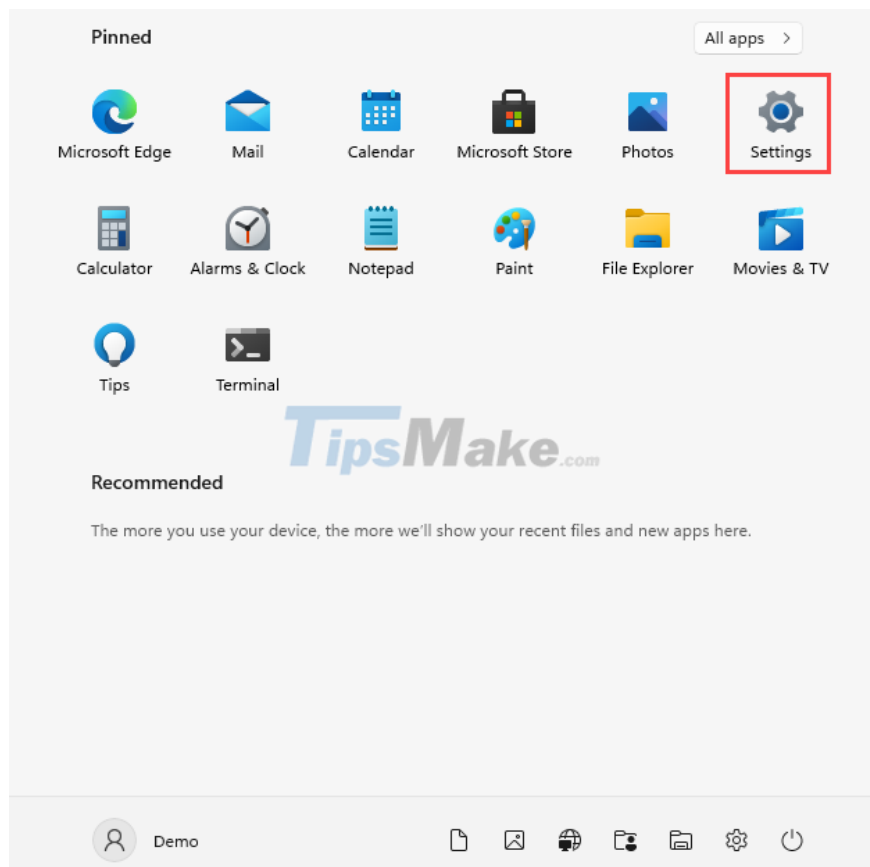

**Step 3:** In addition to the above method, you can also right-click an empty space and select **View => Extra large icons/ Large icons/ Medium icons/ Small icons** .

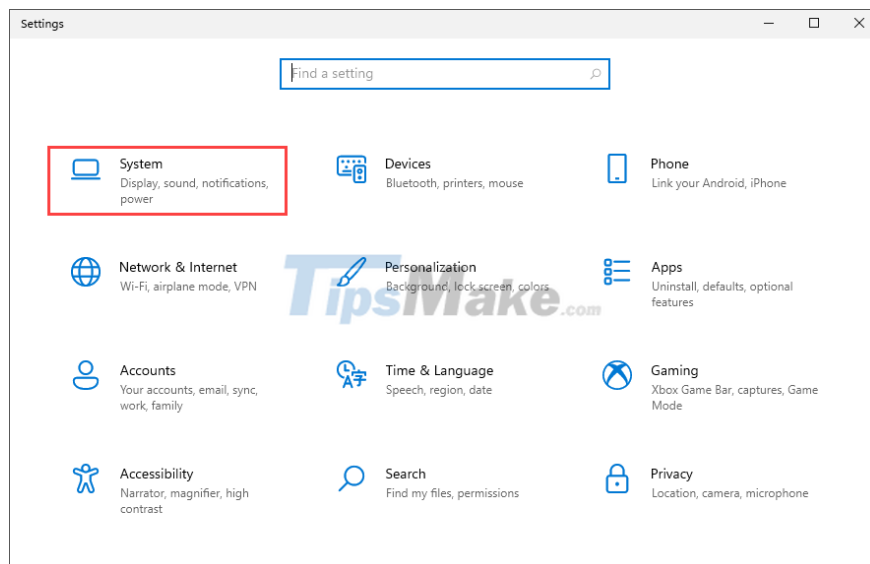

## 3. Enlarge application icons on Windows 11 computers

In case you want to enlarge application icons on Windows 11 then you will have to resize the entire Windows 11 interface because this way will enlarge the overall interface of Windows 11.

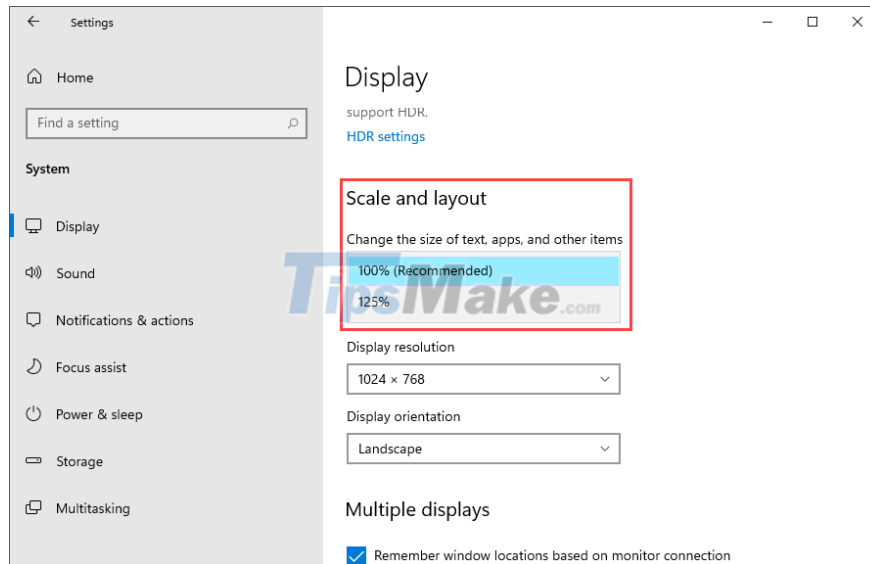

**Step 1:** Open the **Start Menu** and select **Settings ( Windows + I )** to open it.

**Step 2:** Then, open **Settings** and select **System** to see system settings.

**Step 3:** In the **Display** tab, you can change the value of the **Scale and layout** item to enlarge / reduce the interface of Windows 11. This will include changing the size of the application on the screen, mail item,...

## 4. Quick icon resize with Ctrl . key

In case you need to resize the icon without following the available size formats, use the Ctrl key. This feature allows you to change the size arbitrarily, even larger or smaller than all three methods above.

**Action:** *Hold down Ctrl + scroll forward/backward mouse wheel (middle key) .*

## 5. Resize app icons with keyboard shortcuts

In addition to the above ways, you can resize all the icons on the screen with the extremely useful dedicated keyboard shortcuts of Windows 11. Using the keyboard shortcuts, you can easily resize the icons. application icon quickly.

**Keyboard shortcut to resize Windows 11 icons :**

Ctrl + Shift + 1/2/3/4

*Inside:*

1. **Extra large icons:** Largest size
2. **Large icons:** Large size
3. **Medium icons:** Medium size
4. **Small icons:** Small size
