

Steps to share iTunes library on iPhone or iPad

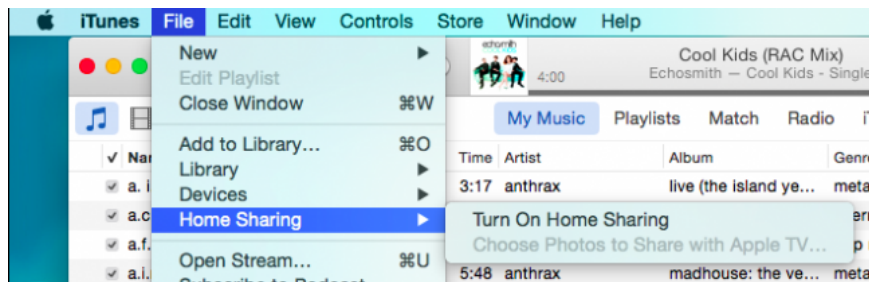

Sharing iTunes libraries on iPhone and iPad is not easy, especially for new iPhone or iPad users. The following article Admin network will show you how to share iTunes library on iPhone and iPad.

Suppose in case your **iPhone** or **iPad** memory is full but you do not want to delete any songs or videos in the device. So why don't you think about the option to share and save these songs, videos . on your computer. However, sharing **iTunes** library on **iPhone** and **iPad** is not easy, especially for new **iPhone** or **iPad users**. The following article Admin network will show you how to share **iTunes** library on **iPhone** and **iPad** .

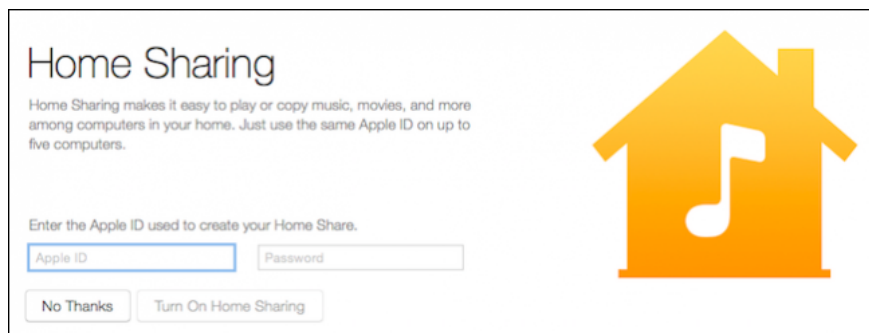

Note: your devices such as iPhone, iPad, computer . have installed iTunes.

If your devices do not have iTunes installed, download iTunes to your device here and install it.

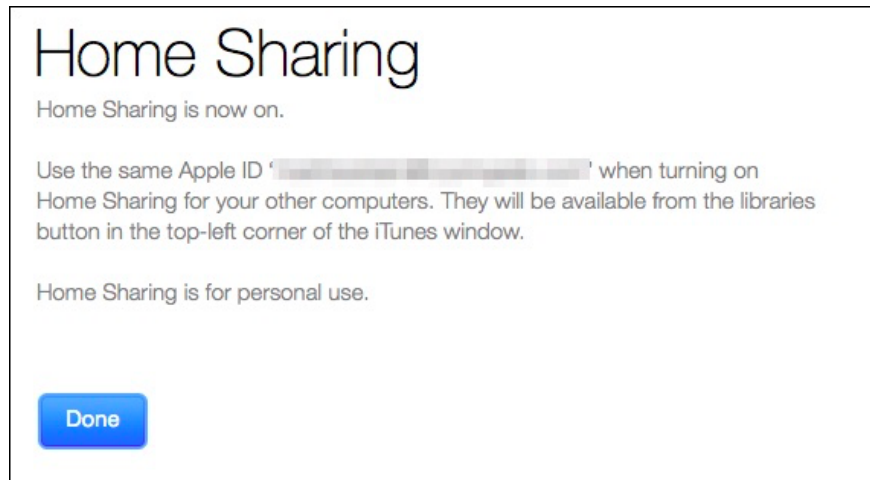

First activate **Home Sharing** on your computer. Open **iTunes**, click **File => Home Sharing => Turn on Home Sharing** .

On the **Apple ID** login screen (iTunes account), enter your **Apple ID** and password to login.

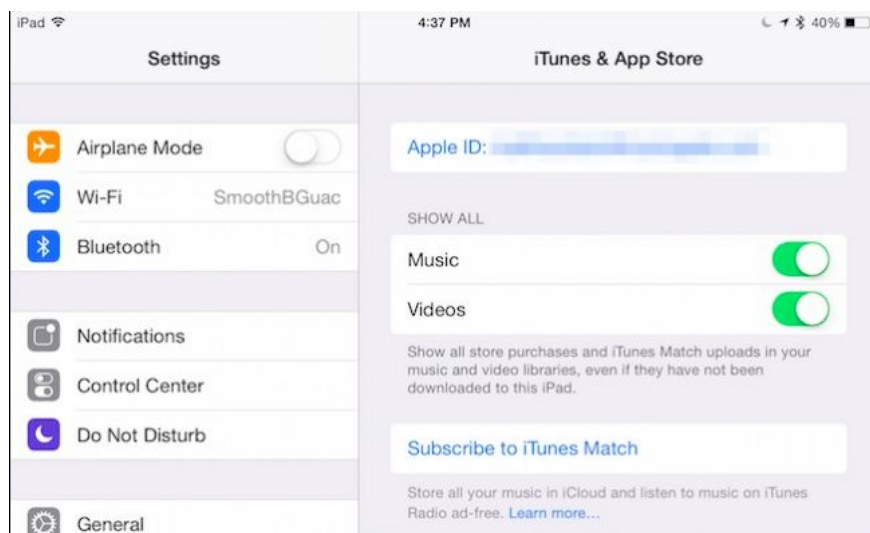

After the login is completed, a message will appear on the screen. Click "**Done**".

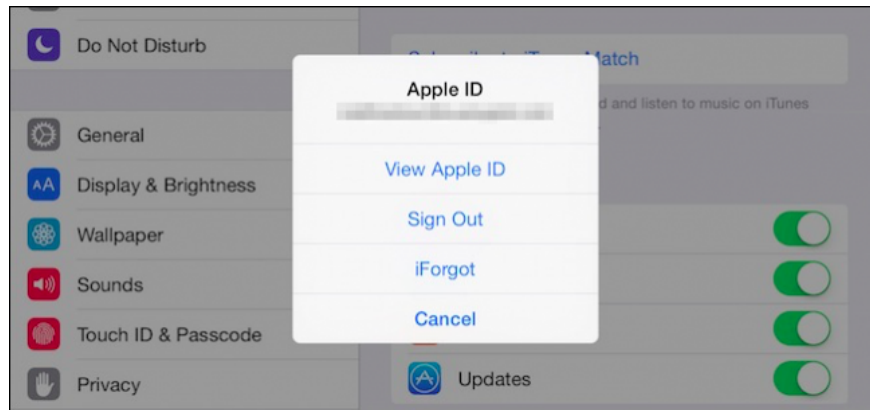

Note: Your other devices must also connect to **Wi-Fi** and log in to **Apple ID**.

You can turn your iPhone into a Wifi hotspot with just 5 basic steps, refer to how to do it here.

To check on your **iPhone** or **iPad** , open the settings (tap), tap "**iTunes & App Store**" , then log in to your **Apple ID** .

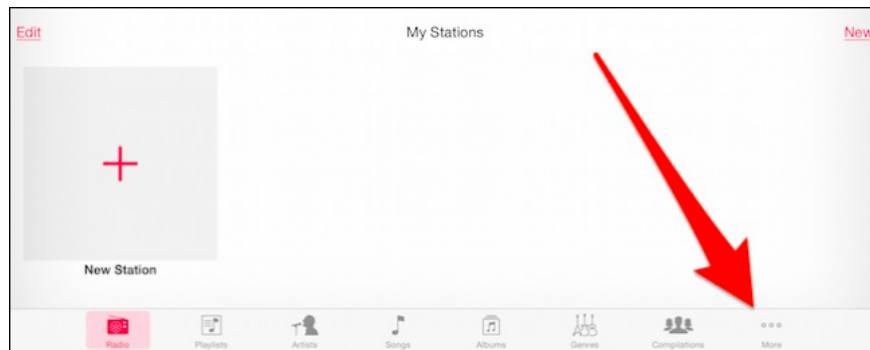

To change your login, simply tap the "**Apple ID**" link, select **Sign out** , and then log back in to **Apple ID** corresponding to the **Apple ID** you logged in on the computer.

Open music **apps** on your **iPad** or **iPhone** .

Notice that at the bottom of the application there are detailed items like radio, artist, playlist . you will see an option to display the words '**More**' , touch that option to select.

On the next screen, click on "**Shared**" to see the library you can share.

The system will fully display all the music and video data . that you can share to other devices.

Good luck!
