

Study online on e-Learning lectures

The E-Learning lecture store under the Ministry of Education and Training provides courses with various levels and subjects for students or teachers to have more teaching and learning materials.

The software and online learning applications now make teaching and exchanging between teachers and students easier, besides directly going to the lecture hall. The e-Learning lecture warehouse of the Ministry of Education and Training stores the system of E-Learning lectures of various subjects and levels of education, with the purpose of teaching, learning inside and outside the school. The collection of lectures brings together the best quality lectures from teachers throughout the country through the National E-Learning Lecture Design Competition held annually. Students and parents can refer to the lessons to quickly capture any new changes in the curriculum. Teachers also have more resources to study and learn from the experiences of other teachers. The following article will guide you how to read online learning on the e-Learning lecture store.

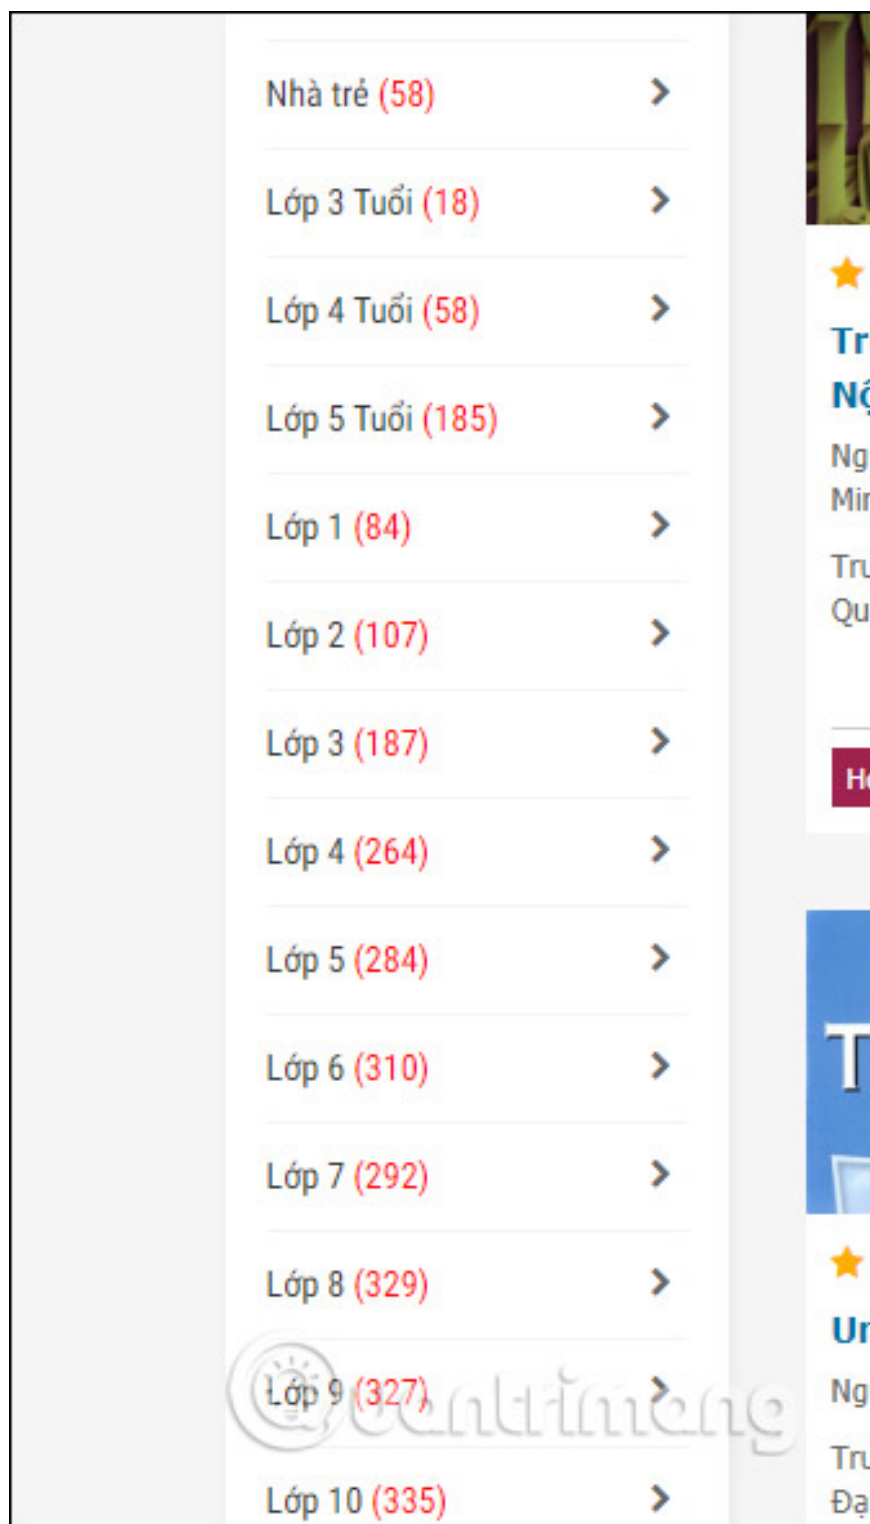

How to learn online on e-Learning lectures

Step 1:

We access the home page of the e-Learning lecture store by following the link below

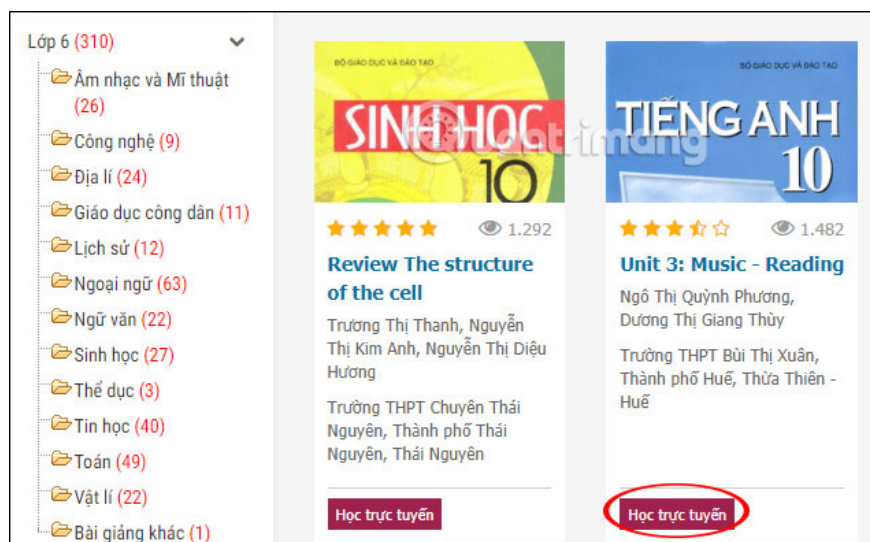

<https://elearning.moet.edu.vn/elearning/>

At the user interface, you will see in the left column, different levels of education from kindergarten, primary school, junior high to high school. We choose the grade to view the lecture.

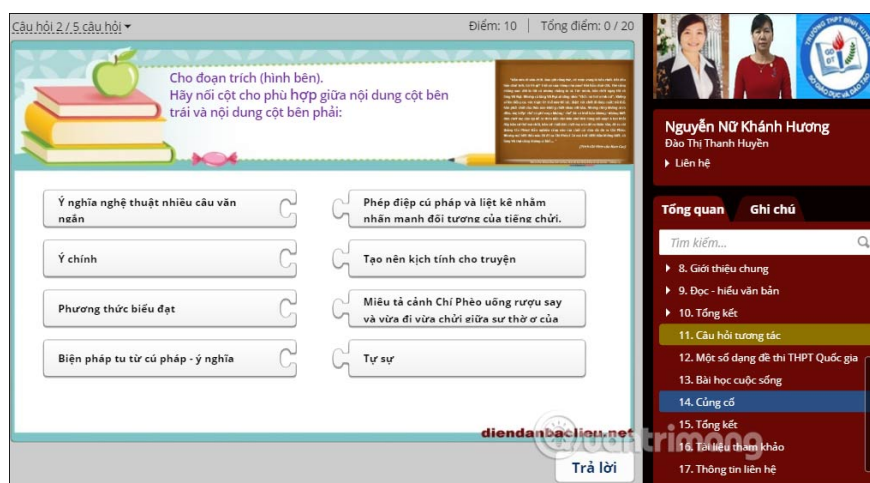

Step 2:

Switch to the new interface with the subjects for users to choose to view lectures. Or you can click the next tree to select a subject. To **learn online** click on **Online learning** .

Step 3:

Next is the main content of the lecture. In case users want to download lectures, they need to have an account to register for use.
