Some problems with Pokemon GO game:

How to move in Pokemon GO game:

As a game enhanced by virtual reality, it means that mobile will interact with the characters created by the system based on smartphone GPS based. So you move by moving, walking, running, or rolling, crawling to a position designated by the system.

How to turn on your phone's GPS?

1. On Android: open Notification Center> turn on Location.
2. On iPhone, iPad: go to Settings> turn on Location.

I can't download Pokemon GO on iPhone?

You must have an apple or a newzealand region account to download, if not already available, follow the instructions:

1. Set up a new 100% email.
2. Logout your old Apple account on Apple Store.
3. Click on any game or application for **FREE** , click Download.
4. Select " **Create New Apple ID** "
5. Visit the Fake Name Generator site, get an Australian address and phone number.

6. Use your address and phone number to create an account, during the account creation process, do not choose to pay by Visa.
7. Create completed verification email by going to the email created in step 1, confirming the email.
8. Exit new apple account, Turn off Apple Store completely, reopen and log in again with the new account.
9. Choose **Pokemon Go** , download and play.

Is there a mistake when traveling?

Have. The permissible deviation range is 50m or less compared to the GPS position on the map.

For some reason I can't get out on the street, is there any way to catch Pokemon?

Have. By using the Item in the game, it is called Incense, which acts to lure Pokemon closer to your location, the effective time is 30 minutes, the price is 80 coins.

Boost points Combat Power - CP for Pokemon?

Transfer the same type of Pokemon, the same system to get candy points, use that candy to upload the main pokemon you want (each type of pokemon has 1 different type of candy, only used for the same type), slightly confusing but if started If you play games, you will know.

I can't access Pokemon GO game to play?

The phenomenon of users not being able to access the game, or entering the game without moving may be caused by the server - Server is maintaining and updating the feature so it will cause that error phenomenon.

What effect does the item purchased in the game have?

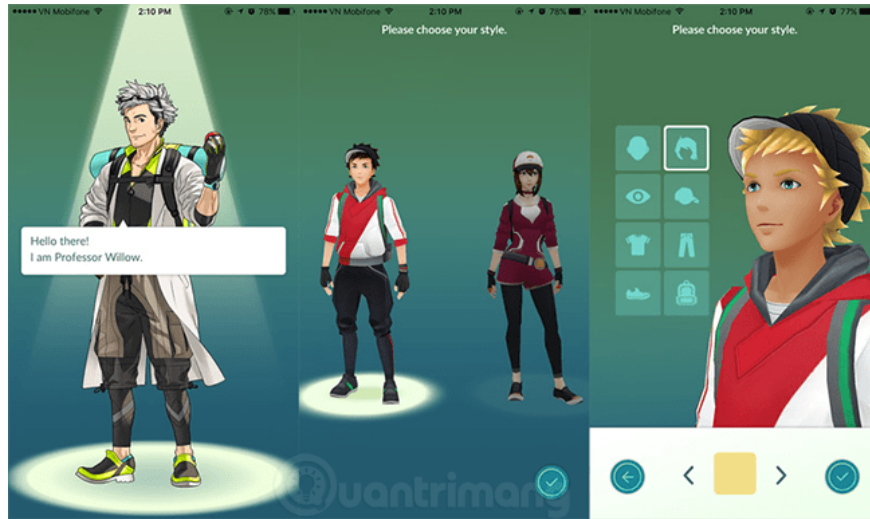

Currently the shop is available: Pokeball, Incense, Lucky Egg, Lure Module, Egg Incubator, Bag upgrade and Pokémon Storage Upgrade.

1. Incense is used to attract Pokemon closer to your location, so use it when you don't have time to go out. Call pokemon to come and catch. Time 30p
2. Lucky Egg used to x2 exp for the character. Time used in 30p.
3. Lure Module is also a form of pokemon attraction, used at PokeStop, but it will attract pokemon to PokeStop for you, especially the other players also enjoy it when you use this item.
4. Egg Incubator: This one is not clear because there is no egg to try yet, it is probably used to hatch eggs.
5. Bag upgrade and pokemon storage upgrade is to expand the item box and pokemon to 50 cells.

Some of the first images of Pokemon GO:

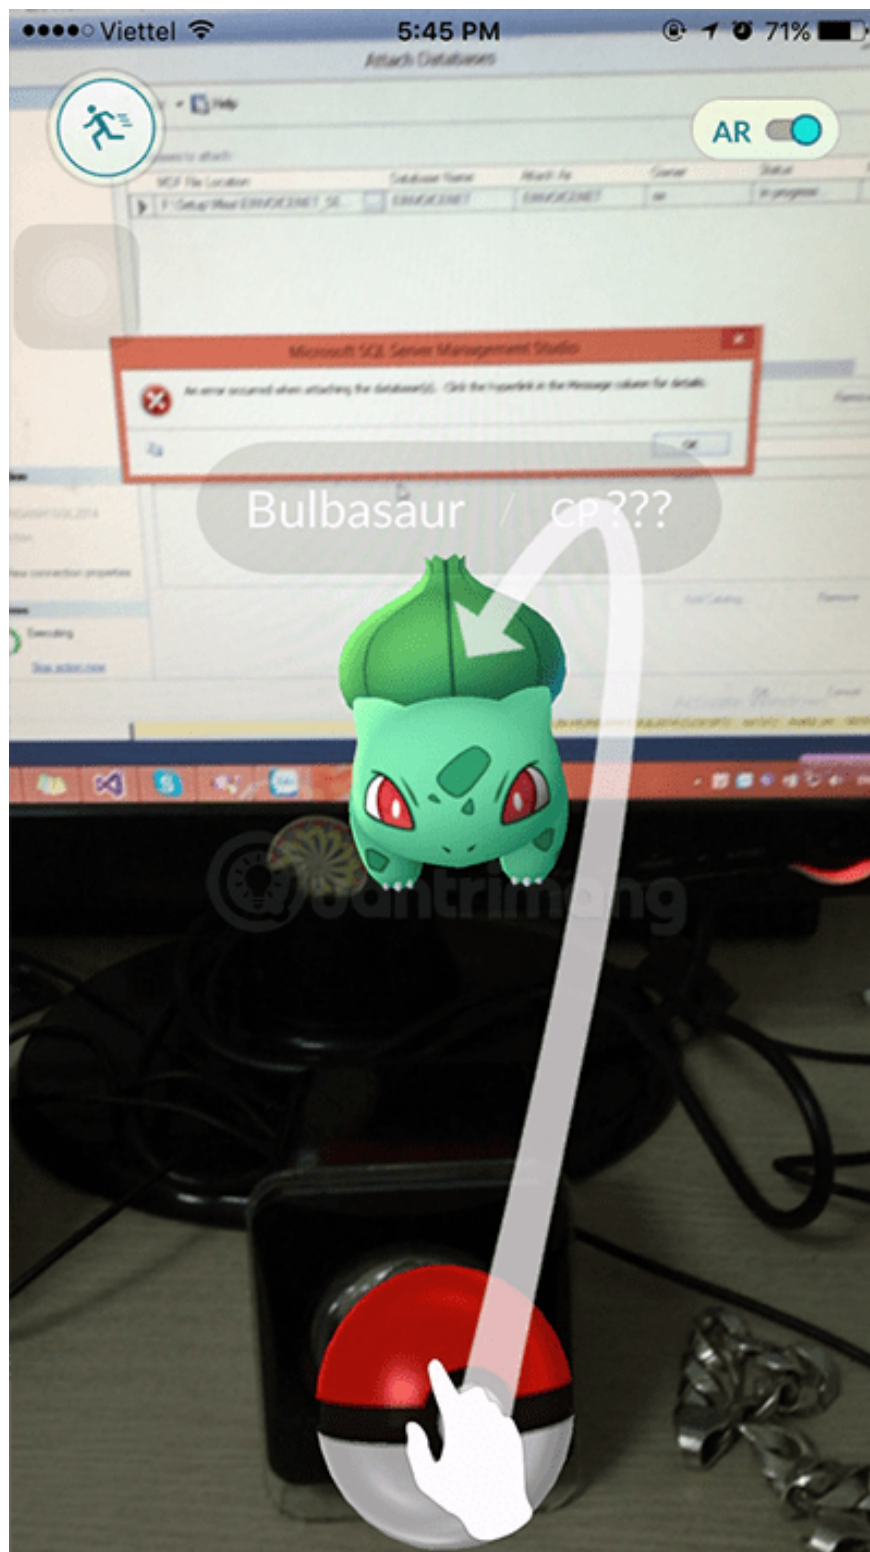

When new to the game:

Upon seeing any Pokemon:

To catch Pokemon, you throw the globe icon on the Pokemon you need to catch, don't throw your phone:

Good luck!
