

Summary of Apple Arcade games you can play on any Apple device

Here are all the games currently available to play on Apple Arcade, updated as new games are released.

Apple Arcade currently has over 180 games for as little as \$5/month and with lots of new games being added almost every week.

You can try Apple Arcade for free for three months when you buy a new device, or one month for free if you sign up for the first time. To try the service, open the App Store and tap the small joystick icon at the bottom of the screen. Plus, the Apple One subscription, which was launched last year, makes it easier and more affordable to get up to six Apple subscription services, including Apple Arcade, for one price.

Here are all the games currently available to play on Apple Arcade, updated as new games are released.
