

# Summary of keyboard shortcuts for playing PUBG and PUBG Mobile on computers

PlayerUnknown's Battlegrounds (PUBG) gaming keyboard shortcuts will help players operate faster, helping you easily win battles with other players.

The keyboard shortcuts in PlayerUnknown's Battlegrounds are one of the things that gamers need to know and understand to be able to operate quickly when playing games. With attractive survival shooting gameplay, players will participate in fierce battles with other players to win the final victory.

In addition to the goal of becoming the last survivor, PlayerUnknown's Battlegrounds gamers also have the additional task of collecting a lot of weapons and other items while playing the game. Besides, tactics and flexible, agile movement are also emphasized in this shooting game.

You have to move quickly to avoid the enemy's line of fire, or your hiding skills must be truly professional to preserve your own life. The keyboard shortcuts for playing PlayerUnknown's Battlegrounds in the article below will help players gain more control over their opponents.

## Shortcut keys to control the game PlayerUnknown's Battlegrounds

**Z key:** Lying position helps you be less detected when lying among tall grass. But the disadvantage is that the gun cannot be centered high and movement will be limited.

**Key C:** The kneeling position can avoid bullets, and at the same time can observe and aim as usual. In a sitting position, you can also move to bend over to avoid attracting attention.

X key: Put away your weapon and use your bare hands, helping to move faster.

Key V: Change the shooting angle. The first perspective will aim and shoot but is difficult to observe. You can use this mode by clicking once with the right mouse button. The third perspective will default to extremely large coverage capabilities.

Key B: Change firing mode. Shooting modes include Single shooting 1 bullet for 1 left click, Burst firing a series of bullets for 1 click, Auto holding the mouse to discharge bullets.

Key F: Pick up items, open doors, get in the car (to pick up items, use the Tab button and left click to drag through quickly).

Tab/I key: Open Backpack to see other items. You can also combine this key to pick up items faster.

Shift key: Increases speed when moving, applies to all vehicles. Use this key to aim and shoot more accurately.

G key: Next weapon.

Keys 7,8,9,0: Quick keys for medical tools such as healing and medicine.

Q key: Lean to the right.

Key E: Lean to the left.

Alt key: Hold Alt and rotate the mouse to maintain a position to observe your surroundings.

M key: Turn on or off the big map.

Ctrl key: Go slowly.

Key =: Auto run.

Ctrl + T key: Turn on/off Voice Chat in the game.

Ctrl + U key: Turn off all display bars such as health, bullets, mini map, guns, compass.

Ctrl + 1,2,3,4,5 key: Change sitting position in the game.

Page Up/ Page Down key: To adjust the drop of the bullet at 4x or more.

Ctrl + Right mouse button or drag and drop item: Display item separation panel.

Ctrl + Right mouse button or drag and drop item: Display item separation panel.

Hold down the left mouse button after shooting (sight gun): The gun will hold the aim so you can see where the bullets fall.

Right click key once: Look down from the first perspective.

Right mouse button: Aim more accurately in the 3rd perspective.

Above are the basic shortcuts, moving or using guns when playing PlayerUnknown's Battlegrounds. Remember these shortcuts to gain an advantage in the game.
