

Summary of the best free Upload Photos, not deleted

If you are a designer or prefer to draw on your computer, storing your personal products online is a necessary way to share with others. Currently on the market there are many good Photo Upload sites, but not all Web sites are supported for free and store images for you forever.

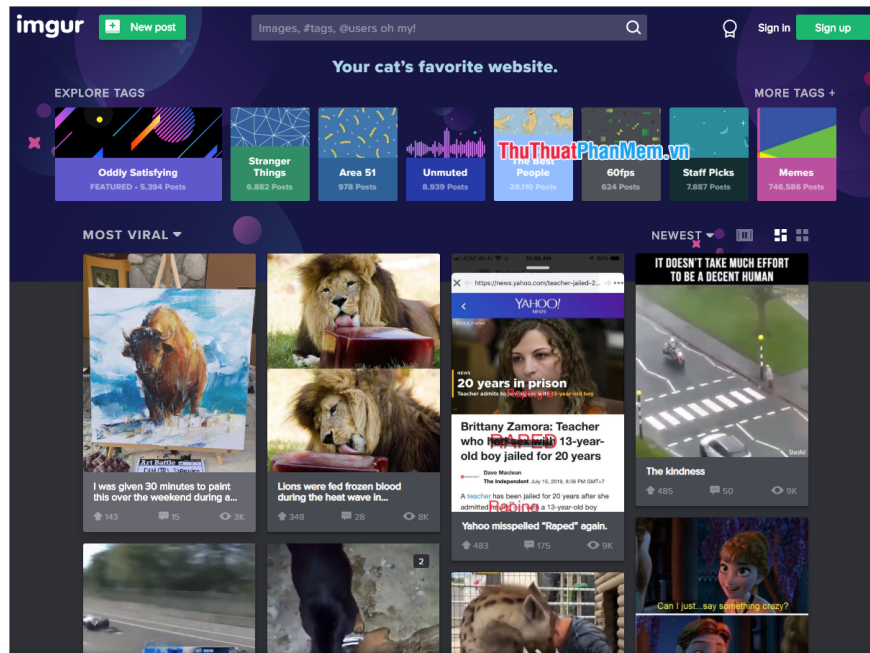

If you are a designer or prefer to draw on your computer, storing your personal products online is a necessary way to share with others. Currently on the market there are many good Photo Upload sites, but not all Web sites are supported for free and store images for you forever. In this article, Software Tips will introduce you to the best free photo upload sites and not deleted.

1. Imgur

Imgur is used by a lot of people and is currently the biggest free photo upload website available today. With a large number of visitors and users, Imgur's image resource database is extremely popular. Imgur supports many different image formats, especially Gif images. In addition, you can download a lot of images for free on the Web to use.

On IMGBB there are many features to support in the use process such as: Arranging photos, sharing photos in batch, deleting photos by date, .

4. TinyPic

TinyPic is also an image upload website that is heavily used in foreign countries. TinyPic is associated with many forums, Forum different technologies to help Forums can upload images. Until now TinyPic has not collected any user fees. All services on TinyPic are completely free. But when you upload images to TinyPic, you are limited to downloading when sharing photos with others (Download up to 10 times / 1 photo / 1 day). Perhaps this limitation does not affect the problem of your image backup.
