2- [MWC 2015] HTC One M9: Nice machine, good configuration, good software

HTC One M9, one of the most anticipated superstars of this year at MWC 2015, has brought many changes not only in design but also in software, configuration and features. Appearance M9 is still quite similar to M8 but has a 20 MP camera on the back, bringing UltraPixel camera to the front, up to the highest configuration, preinstalled Android 5.0 with the latest Sense 7.0, Dual Finish design includes two color on the body, monolithic aluminum shell, external Dolby surround sound speakers . are new points available on this One M9. **See details**

3- [MWC 2015] Galaxy S6 Edge 2-sided curved screen and S6 usually

Nice and light are the first two words I uttered when holding the Galaxy S6 edge and S6 for the first time. Samsung this time is really serious about the design of these two new phones making it different from what the

company has introduced in the past. From details such as glossy back glass, solid metal edges, camera surrounds to 14nm 8-core processors, LPDDR4 RAM and interface enhancements all show an effort to create a product only good in appearance but also in strength and software.**See details**

4- Galaxy S6 and S6 Edge, up to the price of 18.5 and 20.1 million?

After the pictures as well as the movie about the Galaxy S6 duo and S6 Edge on the event last night, recently, Samsung has officially launched the first advertising video about this duo. Similar to previous announcements, Korean manufacturers are committed to bringing better devices with leading technologies.**See details**

6- Yahoo celebrates its 20th anniversary, memorable milestones

This day 20 years ago, Yahoo! Officially founded by David Filo and Jerry Yang with the desire to make it easier for users to access the web world. Now after two decades of development and operation, Yahoo retains its core values ??and brings new values ??to users. Although the market position has been greatly reduced, but hopefully under the reform of CEO Marissa Mayer, Yahoo will overcome this difficult period and soon return to more great products. Happy Birthday Yahoo![See details](#)

7- Google with an Internet balloon: A crazy idea or a money-making machine?

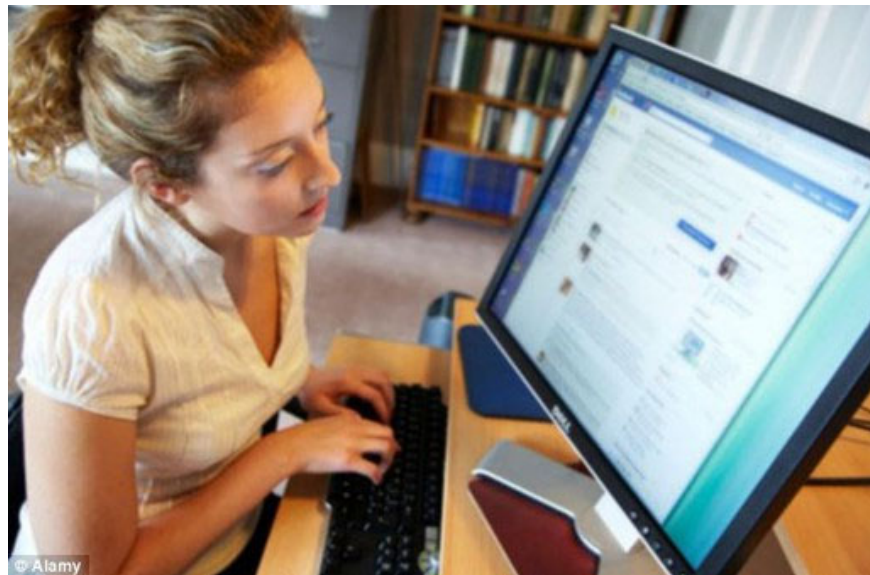

When Google first revealed their ambition to use high-altitude hot air balloons to cover the Internet to the most remote areas in the world, it was viewed as a crazy idea. However, after 4 years, Project Loon has made a remarkable development and is proving its potential.[See details](#)
