**Notable features on iPhone 6, time to order iPhone 6, iPhone 6 predictions, instructions on how to delete youtube search history ensure privacy, quick shortcuts for Coc Coc, optimize the time battery for laptop running Windows 8.1, . is the most interesting news last week.**

## 1- 12 remarkable features on iPhone 6

Apple has officially launched iPhone 6 and iPhone 6 Plus. In addition to increasing the screen size, these two new iPhones are also equipped with unique features, which are exciting for users. Notable features include *new design language, large screen, high-speed SoC A8, new iSight Camera, Focus Pixels, Face Time HD, longer battery life, faster LTE connectivity and support Multi-band support, faster Wi-Fi connection, barometer, 128GB storage capacity, NFC chip.* **See details !**

## 2- iPhone 6 for order from 12-9, sold from 19-9

In an event that took place on the morning of September 10 (*Vietnam time*), Apple has officially announced the new iPhone 6 generation with two versions using different screen sizes of 4.7 inches and 5.5 inches. (The 5.5-inch version is named iPhone 6 Plus by Apple to make it easy to distinguish it from the 4.7-inch screen.) It is quite unfortunate that both versions of iPhone 6 are not equipped with sapphire glass as expected, but "apple house" equipped with a type of toughened glass called "Ion strength", the back is equipped with stainless steel material. **See details !**

### **3- The predictions about the upcoming iPhone 6 model**

Tomorrow 9.9 (*local time*), Apple will hold an event to officially launch the iPhone 6 model at the Flint convention center (*USA*). Here are some information related to iPhone 6 that has been rumored by the media in recent times such as the design of the machine, the technology applied on the screen, the specifications of the machine, the equipment platform. of the machine. **See details !**

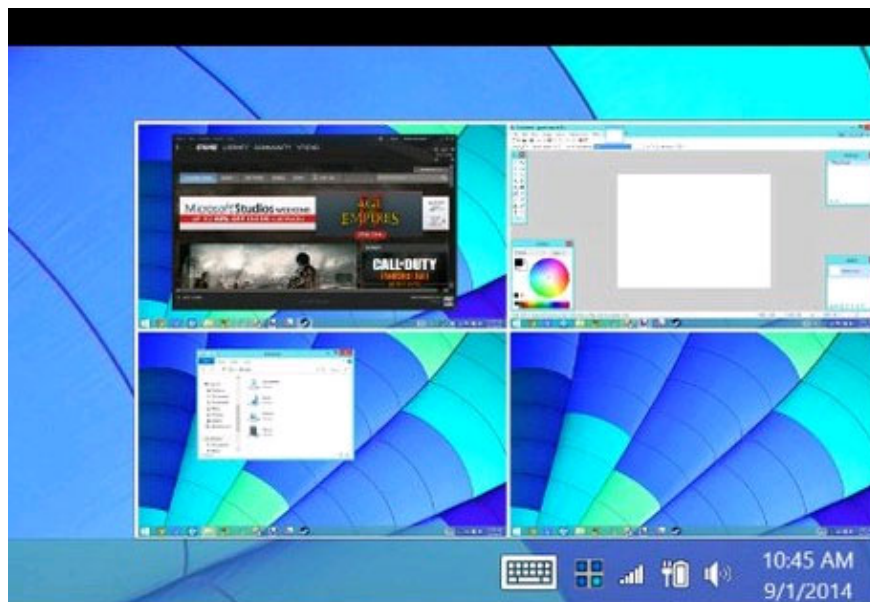

## 4- Instructions on how to delete YouTube search history and ensure privacy

YouTube is a video sharing network that is popular with users all over the world but does not lack sensitive content. So if some people are willing to share all of YouTube's activities on Facebook for their friends, on the contrary, you may have to learn how to make sure people can't follow what they do on YouTube.

Simply because even without purpose, accidentally searching, viewing or clicking actions can become a cause of misunderstanding. **See details!**

## 5- Try the hidden Desktop feature of Windows 9 on Windows 7 and 8

Like previous leaked information, **Windows 9** will be equipped with virtual desktop features like the Linux and Mac operating systems that were done a few years ago, but the interesting thing is that Windows 7 and 8 itself have been paged. This feature is available, but it has been hidden quite deeply in the system. **See details !**
