25 billionaires USD went up from the white, How to block Facebook advertising messages, Apple conceded Taylor Swift case album 1989, how to find hardware drivers that Windows does not recognize or email applications on iOS . are those News and tips are most interested in the week

1- 25 billionaires USD goes up from white hands

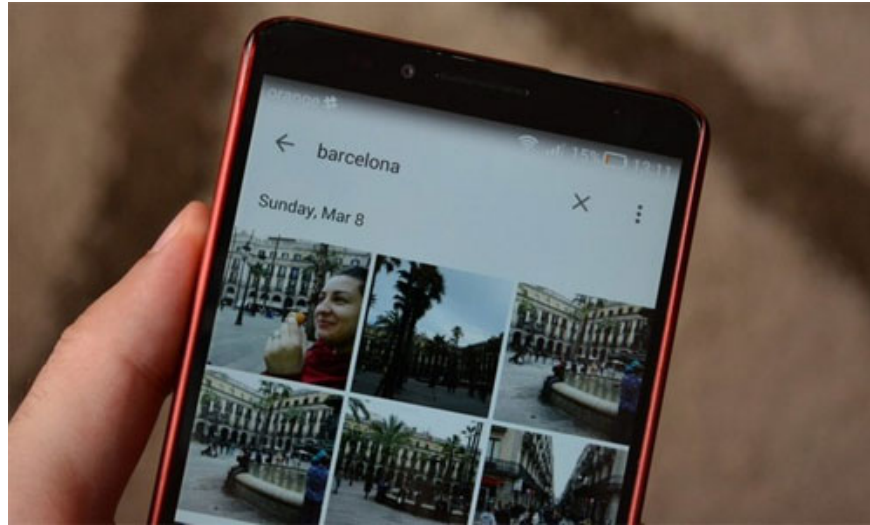

In this article, invite readers along with the attendance of 25 billionaires around the world to make a career from scratch, based on X-Wealth personal wealth research and asset valuation data. This list appears quite a lot of tech names like Bill Gates, Mark Zuckerberg and Jack Ma.**See details**

2- How to block annoying advertising messages on Facebook

Recently, there has been a movement of spam spam messages and almost every day I receive at least 10 advertisements from non-friends. Surely many people also feel this is too annoying and itchy eyes, so the best way is to filter out messages from strangers. [See details](#)

3- Google Photos: The price of the free?

Google Photos is a photo-saving application originating from the Google+ platform recently revealed by the giant in the recent Google I / O event. This service allows you to automatically upload all photos, videos to the cloud for free and unlimited storage, except for the two requirements. [See details](#)

4- Apple conceded Taylor Swift in the 1989 album

Over the weekend, many news sites around the world said Taylor Swift refused to include 1989 albums on Apple's Apple Music online music service. The cause of the incident stems from the free 3-month policy of using Apple Music. [See details](#)

5- Beat the BPAV version of the commercial box

BKAV said that they only initially equipped charging on BGB 16GB, the 64GB version can be used to charge quickly. However they upgrade to fast charging as an apology and thank users who have accepted waiting. This is quite a welcome move and it also partly offset the discomfort when we have to wait for more than 2 weeks and still have not received the machine.**See details**
