

Summary of tips to play Call of Duty Warzone to help you win TOP 1

Here are some tips to play in Call Of Duty Warzone, if you fully apply these tips in the game, the surrounding gamers will see you as a Pro even though you have just downloaded the game.

Call of Duty Warzone has a number of different standards than some other survival shooters like PUBG, Fortnite and Apex Legends. Different Call of Duty Warzone configuration does not say what to do.

You will still loot, but mostly inside the chest, only a few low quality items will appear on the ground. You will also land with at least one pistol in your hand. More specifically, you can collect killstreak and call for help like air strikes, attack helicopters to get more lives .

There are additional small tasks in the game that you can get rewards for completing. And one thing that makes many gamers extremely excited is that you can revive in the game like in Apex Legend.

But these are just the things that are officially introduced and gamers can know when participating in the game. There are also small playing tips that you need to have play experience to detect and take advantage of yourself.

But you will not need to spend many hours playing to be able to take advantage of these, see the article summarizing the tips below and make sure you will find it easier to join COD Warzone. next time.

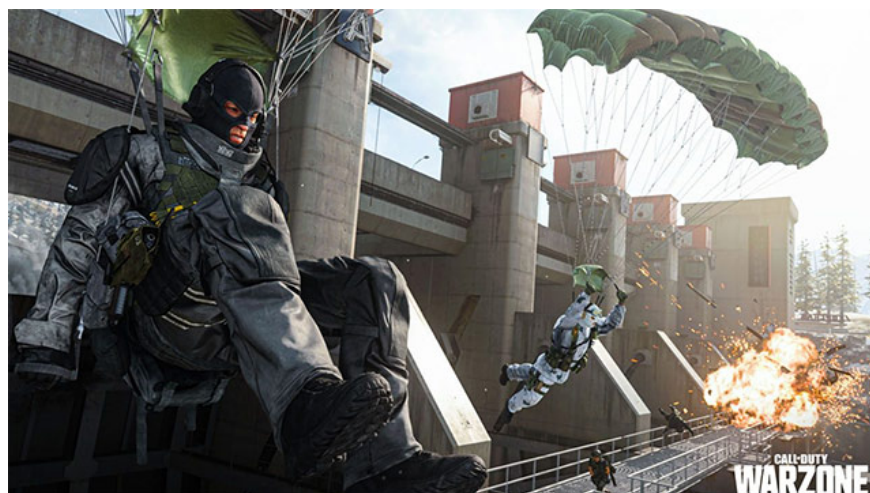

Some basic tips when playing Call of Duty Warzone

1. Shoot in the air

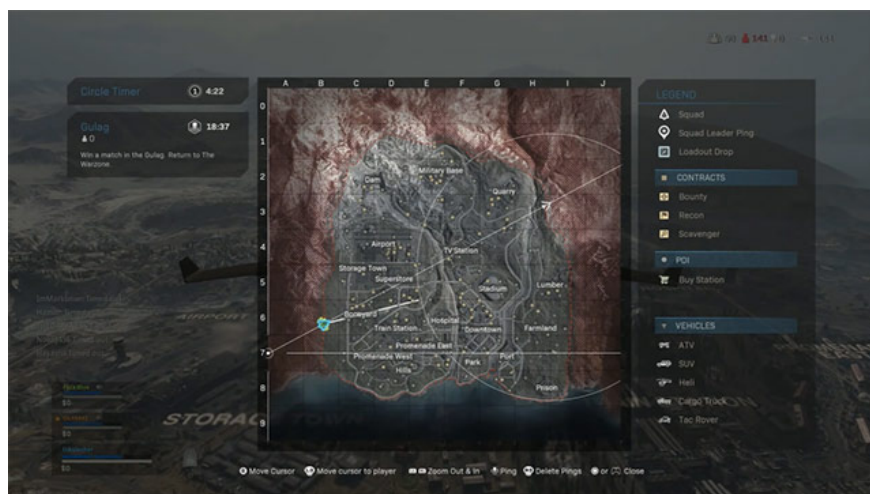

You can still shoot nearby players while flying in the air. Special parachuting mechanism allows you to open the parachute and then close it. You can now pull out your existing pistol and shoot at any enemies in the air with you. And when it falls close to the ground, just reopen your umbrella and land safely.

2. Bung umbrella

Your parachute may inflate multiple times during a match, unlike PUBG or Fortnite. You can open your umbrella any time you are far enough away from the ground. Falling off an average height building, off the plane. It also helps you to move an average distance quickly.

3. Round Bo

This may be those gamers who already play the survival shooter already know. The circle - the safe area where you will not be affected by the gas, is distinguished by a white circle on the map. The red area where the gas is traveling is slower than the white circle area.

During the early game, you can go to the center or at least inside the white circle to ensure safety. Although it will not be easy and can be in danger, but certainly if you enter the central area safely, the chances of you getting

TOP 1 will be higher than others.

4. Revival

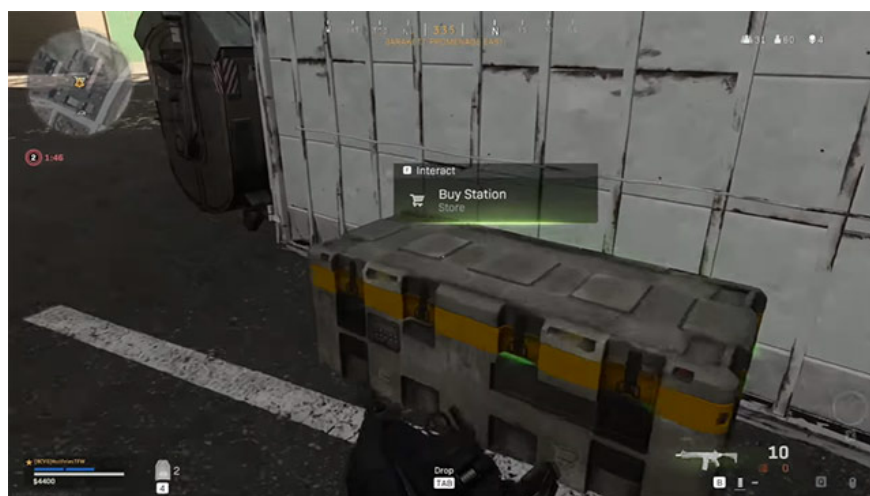

A special feature of Warzone is that players will be revived once. Players killed for the first time in the main map will be teleported to Gulag prison. Captain Price's whereabouts in Call of Duty: Modern Warfare 2.

In here, you will also be a prisoner and must watch other prisoners fight until one of them is alive. In turn, another player will become your enemy and both will participate in the duel of life and death. Of course, the winner will be the one who returns to the main playing field

The second is that you can revive thanks to your teammates, to revive in this way, your teammates must earn enough money to be able to bring you from Gulag to the main map. And each player can only 1 revival only.

5. Shop

There are stores in COD Warzone and they are marked with a trolley icon on the map. Go near and you can buy some items such as air raids, gas masks, UAVs, automatic guns . So do not forget to pick up money besides

weapons and items in the game.

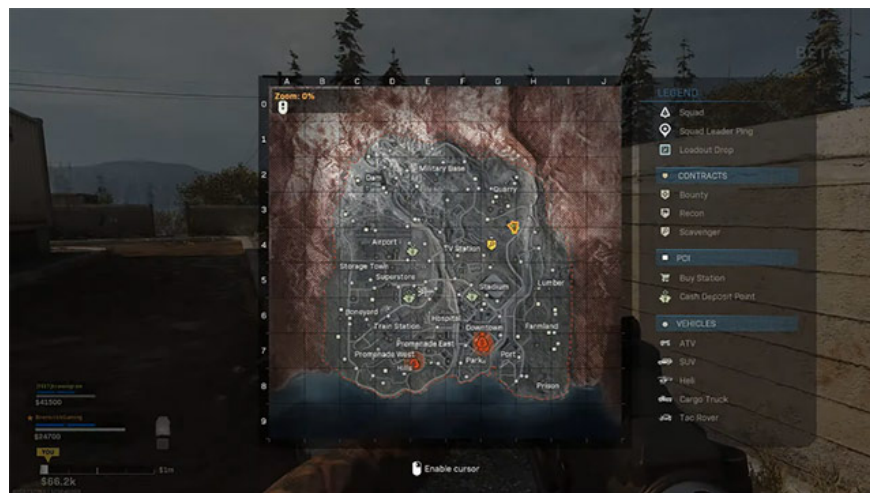

6. In-game money

If you loot a lot of money early, then try to save. Approximately \$ 4500 is reasonable because both can buy comfortable items but also revive teammates. Then use them to buy some support items.

But don't store your money for too long, if you die, you'll lose it even if you revive. So don't save money too long unless you save money on something special.

7. Mission

When you loot, you will see some nearby missions, if you can or receive them. Quests are marked on the map with icons in Contracts when you turn on the map.

The missions in Call of Duty Warzone are relatively simple, but the reward is a lot of money. So prioritize the tasks at the beginning of the game, you will have the advantage later on.
