In addition to voice, messaging services are always selected by mobile users. However, with the price of messages currently at 100-300 dong, a few hundred SMS messages a day is quite good. So do you know any free, super cheap SMS?

Thanks to the website of the network

Currently, on websites of VinaPhone network, MobiFone, Viettel . all provide free messaging services for their subscribers. For example, with VinaPhone, you enter the address www.vinaphone.com.vn , with MobiFone at <http://mobifone.com.vn> , Viettel is vietteltelecom.com.vn , register to become a member by main The number of mobile subscribers you are using.

Successful registration, the network will *give* you dozens of free messages every day. But the common disadvantage of free messaging from the web is that you will be attached to a message to the subscriber as the

content of available advertising of the network. In addition, you can only send free messages to subscribers of your network.

With 'followers' of Yahoo! Messenger, many people know a simple way of texting from the search box of Yahoo! Messenger. And the message window from this search box, to send messages to some mobile subscribers, you just need to enter the number but remember to replace the first 0 with +84, then send a message of no more length 140 characters. However, this way you can only send 3 free messages every day.

Do not forget the package

If you are a student or a student, in addition to free texting from the website, be aware of some packages that carriers are currently offering with many incentives. For example, VinaPhone, recently, this network has launched a super cheap messaging service in early April.

VinaPhone's internal SMS package for subscribers who are students and students with super cheap rates only 30 VND / 1 message. This package is provided by VinaPhone with a texting package - SMS network for all students and students who are using **TalkeZ-T** and **TalkeZ-S services** of the network. With the **SMS100** promotion package of VinaPhone, young people will be confided and exchanged freely all day but only lose 30 dong / message.

With this new package, when registering customers, they will enjoy preferential rates: only VND 3,000 for 100 messages within 24 hours. After that time, the SMS part in the package is canceled. During the period of use of the package, customers can message and register but not accumulate the number of SMS and the expiry date.

This package is implemented after the network has researched the real needs and mobile phone habits of young people. According to VinaPhone, most of the students to save phone charges often have a habit of texting more than calling over the phone.

To subscribe to the SMS100 package, subscribers only need to compose the message in the syntax: **SMS100** sends to **900** . Check the number of internal SMS in the package: **KT_SMS** to **900** .

In addition to VinaPhone, MobiFone network users, Viettel also has a very cheap messaging opportunity with specific packages for students and students. With the package for students, MobiFone is **Q-Student** and Viettel is a student package with 250 VND / SMS for out-of-network messaging while the internal network is 100 VND / SMS.

The package for students, MobiFone is **Q-teen** and Viettel is **Hi-School** , the internal message is 100 VND / SMS. Besides, there are also incentives of only VND 3,000 for 100 free on-net messages a day.

Newly known, the network operators have carefully researched the need to use the service of each customer. Student and student packages are implemented after the network has researched the real needs and mobile phone habits of young people. Most students to save phone charges often have a habit of texting more than calling over the phone.
