

# **SXD247 - The quick search application of HCMC real estate information helps people avoid buying the wrong real estate stickers**

Recently, Ho Chi Minh City Department of Construction has officially launched SXD247, a quick search application for HCMC real estate information that allows people to look up information on real estate projects and their status, records ... and how to carry out administrative procedures.

Recently, Ho Chi Minh City Department of Construction has officially launched SXD247, a quick search application for HCMC real estate information that allows people to look up information on real estate projects and their status, records . and how to carry out administrative procedures. This application is the result of a cooperation between Ho Chi Minh City Department of Construction and FPT Information System (FPT IS).

SXD247 fully and continuously updates official data on current projects managed by HCMC Department of Construction. SXD247 provides information including the investor, investment scale, area, project schedule, legal status and actual images of the project.
